NES—Batman—Return of the Joker

THE SOURCE FOR NEWS AND STRATEGIES STRAIGHT FROM THE PROS
Power

TO THE PLAYER!

JOIN THE POWER UNDERGROUND!

MORE POWER THAN EVER BEFORE... STILL ONLY '15!
● Metroid II: The Return of Samus leads off this month's Game Boy lineup, a fitting spot for a fantastic title that is even more complex than its classic NES predecessor. Fans have been screaming for another Metroid game, and they won't be disappointed when they see the depth of this sequel. Samus Aran is more radical than ever! In other Game Boy news, Master Higgins returns in Hudson's Adventure Island, and ninja favorite, Ryu Hayabusa, shows off slick new moves in Ninja Gaiden Shadow.

● For the NES, Batman's back—and so is his naughty nemesis, the Joker. The joker's on him, though, when Batman puts his mind and might into shutting down his not-so-funny performance. Not for the faint of heart, Batman: Return of the Joker is challenging to even seasoned players, and it's a must-play for Batman buffs.

● The sometimes creepy and always kooky Addams Family comes to the NES this month, just in time to book up with the new movie that stars Anjelica Huston and Raul Julia as Morticia and Gomez. The Addams Family is, of course, based on the TV series from the '60s. It has been syndicated and shown widely ever since it went off the air, though, so it has gained fans that weren't even around when the series was running. In the NES adventure, Gomez has to find Morticia, who is being held somewhere in their spooky old mansion. It's a scream!

● Remember the Game Boy Design Contest we ran back in August? Sure, we expected lots of entries. We didn't expect tens of thousands, though! We got so many that they filled an entire cubicle and threatened to take over our Nintendo Power department! And talk about great—it was really tough to choose the three winners and the three runners-up that we're showing in this issue. In future issues, we hope to include some of the fantastic designs that didn't make the top six.

● To start off the new year with a bang, next month we're making some changes and adding new elements to Nintendo Power. Don't worry—you'll still find the best game play coverage anywhere in your monthly issue. In fact, we'll actually be adding pages to bring you more special features including regular, full-length comics.
# CONTENTS

## FEATURES

**BATMAN** 8  
RETURN OF THE JOKER  
The clown prince of crime makes a stunning comeback in this new adventure based on the DC Comics characters.

**ACTRAISER** 24  
From stunning graphics and sound to action and simulation modes, ActRaiser has it all.

**THE ADDAMS FAMILY** 38  
The Addams Family mansion is a spooky setting for a kooky adventure. It's Gomez to the rescue!

**TINY TOON ADVENTURES** 44  
The Tiny Toonlings are off on a mad and marvelous caper that takes them over land and sea.

**PILOTWINGS** 74  
Take off with the Pilotwings Flight Club for a variety of aerial acrobatic events.

**POPULOUS** 77  
Populous has 1000 worlds to conquer. Our review will help you get started.

## TIPS FROM THE PROS

**NEXT ISSUE** 99
Oh sure, the Super NES is awesome, but....

A few issues back, we asked you to tell us what your ultimate game system would do. A lot of you wanted your dream systems to do your chores and homework, while others just wanted theirs to spit out cold, hard cash. Here are some of the more interesting answers we received.

IF ONLY WE HAD 27 FINGERS!

My fantasy game system would be a complex 512-bit system. It could display 27,876,992 colors at one time and could play any game from any video game system that ever was or ever will be! There would be a miniature band inside that knew how to play any song! You could even buy a special chip that would allow you to make your own games for it! What game would come with the system, you ask? Super Mario Galaxy, better known as Super Mario Bros. 24! The system would come with six 27-button controllers and would cost $259.95. I would call it The Raw Power System!

Jimmy Peterford
Glen Cove, NY

A MOST EXCELLENT SYSTEM

It would be easy for me to decide what my ultimate game system would do: travel through time! What could possibly be more amazing than warping back to Ancient Rome, and then jumping forward to see who’s going to win the next Super Bowl? I even have a name for it: “Bill and Ted’s Most Triumphant Game System!”

Maryann Rizzo
Lincroft, NJ

BUT DOES IT DO WINDOWS?

I’m glad you asked what my ultimate game system would do. I live on a dairy farm in Idaho, and I wake up every morning at 4:00 a.m. to milk the cows. I like my work, but getting up at 4:00 in the morning is not much fun. My dream machine would take care of my morning milking chores so I could sleep in until 6:00 or 7:00. After milking the cows, it would have breakfast and coffee ready for me on the kitchen table, and it would clear off the table and do the dishes when I was finished.

Steve Shirey
Wendell, ID

There wouldn’t be much of a market for a cow-milking, breakfast-cooking, dishwashing video game system, Steve. Besides, your cows probably wouldn’t respond very well.
NO SIBLING RIVALRY HERE!

Our 12-year-old daughter Tracey is a Nintendo fanatic. She's also an honor student in her 7th grade class. Her time is often equally divided between Super Mario Bros. and Math or Social Studies. Although she's only 12, she is helping us raise her sister, Tiffany. They eat, sleep, and play together. I thought I'd seen it all until one day I overheard Tiffany shouting about her Nintendo victory. When I came into the room, I saw both girls playing! We are expecting another baby at any moment. I can just imagine that next year, I will see three children reclining on the floor playing our NES. This picture says it all!

Adrienne Libman
Huntington Beach, CA

ALL SEWN UP

I don't have much spare time, but the two things I like to do most are make quilts and play Tetris. I thought you might like to see a photo of the Tetris quilt I managed to put together between games. I wish all my Tetris games came together as well as this quilt did.

Andrea Morris
Amherst, MA

THE ICEMAN COMETH—AND GOETH!

We thought you might enjoy the Mario snowman we built last winter. Unfortunately, the next morning brought rain and temperatures in the 50's, so no one got to appreciate our hard work!

Ron Gregorsok, Jeff Gregorsok and Jamie Fausnaugh
Bowling Green, OH

LEGO MY MARIO

After about 3 hours of playing Nintendo on a hot summer day, our mom kicked us off of it. We went upstairs and went to work; after 2½ hours and a lot of Legos, we had a Lego Mario!!!

Shawn and Chad Williams
New London, WI

From what you guys have told us, you'll be snatching the Super NES off the store shelves as fast as we can get them there. If you could reserve one of your own by doing something you always swore you'd never do, what would it be? Would you give up candy for a whole year, babysit your pretty little brother on a Friday night, or even wear that ugly sweater your Aunt Edna knitted you—every day? Write to us at the following address, and tell us what you'd endure to get your own Super NES. Remember, we want your most outrageous ideas!

Nintendo Power Player's Pulse
PO Box 97033
Redmond, WA 98073-9733
The ultimate comic book showdown is here! Batman™: Return of The Joker™ from Sunsoft is a seven stage NES bout featuring brilliant graphics, wonderful weapons and a ton of treacherous traps. The Clown Prince of Crime is back to mount a new campaign against the Caped Crusader. It's up to you to guide our cloaked hero through a dangerous hive of devilish snares.

**GAME PAK DATA BOX**

**BATMAN**

**SUNSOFT**

**MEMORY** 1M x 1M

**POWER METER**

- Graphics & Sound 4.3
- Play Control 3.8
- Challenge & Excitement 3.5
- Theme & Fun 3.8

Lighten up, Bat Flake. My reign of mirth is just beginning. You and your simple Bat Toys are no match for the new bag of tricks that I've been cooking up for our next encounter. The last laugh on you!

I won't let you slip away from me this time, Joker. You've done enough harm already. Now it's time for you to pay for your crimes against the innocent citizens of Gotham City.
Since the Caped Crusader is first and foremost a comic book character, it’s only fitting that his latest NES adventure looks as though it’s been lifted from the pages of a DC Comic. The characters are big and brilliantly drawn, and the action flows with smooth, life-like animation. These graphics rival those of any other game ever produced for the Nintendo Entertainment System.

**WONDERFUL TOYS**

Your initial offense against the forces of The Joker is a Slide Attack and a rapid-fire Wrist Protector. When you blast open boxes and crates with the Wrist Protector, you’ll reveal more powerful weapons, represented by large letters. Fire at the letters and they’ll change so that you can pick up any of the four weapons whenever you reach a Power-Up.

**CROSS BOW**

While the Cross Bow is slow to reload, its explosive Arrows really make an impact. Use it when you’ve only got to take care of one enemy at a time.

**SHIELD STAR**

With the power of the Shield Star, you can send out star-shaped Darts in three directions. It’s perfect when enemies are attacking from above.

**NEUTRALIZER**

The Sonic Neutralizer sends out a shock wave of electricity with a wide range of fire. You can use it most effectively when you’re running at a steady clip.

**BATARANG**

When you toss out a stream of Batman’s trademark Batarangs, these boomerang-like weapons will home in on all of the enemies that appear on the screen.

**INVINCIBLE CRUSADER**

When you collect eight of the Energy Capsules that enemies leave behind, your character will launch into an invincible rage for a few powerful seconds.

**INVINCIBLE CRUSADER**

When you collect eight of the Energy Capsules that enemies leave behind, your character will launch into an invincible rage for a few powerful seconds.

Destroy the Joker's minions with single-shot Cross Bow Arrows or press and hold the B Button to send out a four-Arrow attack that will take down anything in its path.

Throw Darts in three directions or Power-Up the Shield Star to create an energy field that takes out enemies at close range.
The adventure begins where Batman's last encounter with the Joker concluded; The Gotham City Cathedral. Climb to the top of the tower and follow The Joker's Airship to a showdown with one of his henchmen.

STAGE ONE
GOTHAM CATHEDRAL

1-1 START

The action scrolls automatically as you race under the Airship. Stay on the right side of the screen to avoid the Airship cannons.

1-2 START

As soon as you land on the girders, kneel and fire to take down an approaching goon.

STAGE TWO
THE JOKER'S WAREHOUSE

2-1 START

After you take care of the goon on the roof of the Gotham Cathedral, you'll continue your search for the Clown Prince of Crime in this trap-packed warehouse. Watch your step!

HAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAH
Your first battle with one of The Joker's main sidekicks will take place on top of the Gotham Cathedral. You'll begin with 80,000 units of energy and your opponent will begin with 40,000 units. Keep firing and you'll make short order of him.

You'll have a definite advantage over The Joker's henchman. Kneel and fire. Take out your opponent's mechanisms before they have a chance to attack.

When the enemy jumps to the other side of the screen, move and fire.

2-2
FLY AND FIRE
After you clear the first section of the warehouse, you'll strap on a rocketpack and blast off through this long corridor. Collect a powerful Shield Star, then move up and down to take out the flying mechanoids.

Stay on the left side of the screen and fly up and down, blasting incoming enemies.
The Joker's trail leads you to his chilly mountain hideout where he has experimented on hero-harnessing traps.

The firebar moves in a counterclockwise direction. Follow it and you'll avoid being scorched.

Hit the first spider from the second bluff, then jump as the ceiling ascends and land when you land so that you can hit another spider.

As the spider on the next bluff moves away and the ceiling ascends, run over the gap, knock and fire. Then move forward and blast another spider.

The spiked ceiling moves up and down in this cavern. You'll avoid contact by running across the gap.

You'll have to watch the moving platform and moving ceiling in this area and jump at just the right moment.

Jump to the left as soon as the rock in the ceiling drops. Then jump to the moving platform and jump again quickly, straight up. A knife soaring in from the right will just miss you.

Hit the barrel-tossing rock on the top bluff as soon as you can get a clean shot. Then jump to the right to trigger a falling rock and move to the left in midair as it drops.

Jump over the first gap, then jump again when you reach the other side. The tornado attack of a mysterious magician will float harmlessly under your feet.

You'll have to watch your step as you run over the frozen streams. If you try to stop when you're too close to the edge, you'll slide into a bottomless pit.

Hit the top of the box, then jump back to the left immediately to avoid contact with a missile that blazes in from above.

Jump to the left as soon as the rock in the ceiling drops. Then jump to the moving platform and jump again quickly, straight up. A knife soaring in from the right will just miss you.
Three missiles come down one at a time in this short, level area. As soon as you see one, jump to the left so you won’t get hit.

You’ll encounter a magician as soon as you leap over the first hole in the bridge. Try to jump over his tornado attack, then counter with your own strong blast.

A magician waits for you at the bottom of the slope. Run into the area firing rapidly and try to stop as soon as you see him. You’ll hit him before he hits you.

A missile, a magician and another missile will cause your headed head to echo here. Jump back to avoid the missiles and fire at the magician.

A knife-hurting hooligan waits on the other side of this gap. Jump over his blade and blast back with your wrist protector.

Freeze as soon as you hit the left edge of the frozen stream, then fire away at a magician across the gap.

Stop when you get to the middle of this long icy patch and you’ll surprise another magician.

---

**POWER 80,000 VS. POWER 80,000**

As soon as this flying mechanoid has a lock on you, it will release a spreading blast that is sure to hit you unless you quickly move to the other side of the screen. When the robot freezes, jump over it and blast it from behind.

Ann for the mechanoid as soon you see it and try to knock out as much energy as possible. Jump to the other side of the robot when it freezes and you’ll avoid its powerful shot.

Hit this bucket of bolts from behind with all you’ve got and you’ll be victorious!
Action heroes never go inside moving trains. They run on top of them! Your ride on the rails takes place after your stint in the mountains turns up Jokerless. The train leads to a factory where The Joker has recently been spotted.

**STAGE FOUR**

**INDUSTRIAL AREA**

The train is loaded with crooks. Stay on the left side of the screen and you'll have plenty of warning when they're on their way. Take down the tins for Energy Capsules.

**4-2 START**

The elevator to the next factory level is armed with unbeatable rapid-fire guns. Jump from their lines of fire and concentrate your shots on the mini-helicopters.

The elevator leads to the Main Control Unit. Survive the ride and you'll face off with this evil machine.

**TO THE LEADER**

Since there are creeps that appear on the left and right sides of the elevator, it pays to stay in the center.

**STAGE FIVE**

**UNDERGROUND CONDUIT**

With The Joker's factory in shambles, you resume your search for the criminal clown in the Gotham City underground. This sewer system was The Joker's escape route from the factory when he sensed your presence.

**5-1 START**

Jump to the left edge of the platform to avoid the steady stream of bombs in the center and work against the current as you wait for an opening.

Get close to the crate before you blast it or the Power-Up will float away.

Be careful! If you're hit by the knife-tossing villain in this area, you may go over the edge while you're stunned.
The mutants in the coal piles have armored backs. Wait until they're facing you, then hit 'em.

Mist the bullies with rocketpacks quickly. They'll leave behind Energy Capsules when they go down.

If you allow the Main Control Unit to recharge, it'll send out a 10,000 volt bolt. Aim straight up for the gun and it won't be able to gather the energy for the bolt. When other enemies approach, take care of them quickly.

Aim for the Control Unit gun and it'll hold its fire.

Hit small enemies quickly as they approach.

Fire back at the gun before it has a chance to recharge.

Jump over the bombs as they flow along the surface and make your move through the falls.

Stay here for a moment and take out an enemy assassin.

The box shields you from enemy fire. If you break it, take out the crook on the other side of the gap quickly.

Run against the flow as you wait for the sliding platform to reach you, then jump!

This flying fight through the sewer system is much like Stage 2-2. Try to collect a Shield Star and move up and down as you clear the area of enemies. Then return to the center when the villains on rockets appear.
The Joker is holed up in a remote army base that he and his minions have taken over. Before you finally meet with this merciless madman, you’ll have to take on his evil army.

**STAGE SIX**

**THE ARMY BASE**

6-1 START

Blast this box and collect a Shield Star.

As soon as you hit the ground, an enemy will appear on the barrel. If you have the Shield Star, you can easily wipe this creep out.

Run to the right edge of the conveyor belt, then kneel and fire rapidly to knock a crook off the sand bags.

**STAGE SEVEN**

**HA-HA-HACIENDA ISLAND**

HAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHA

Your fight with The Joker on the army base ends when he uses a backup half-pack to escape to his hideaway on Ha-Ha-Hacienda Island. You follow him there for a final battle.

HahaHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHA

7-1 START

**Stop just before you reach each firepot and duck to avoid a stream of mechanisms.**

**Hit the lasers for Energy Capsules.**

**Fire straight up to destroy the Bubbles at their source, then hop to the platform on the right.**

**Fire at the Bubbles from the conveyor belt.** Wait for the platform to come to you.

**Loop to the left as the droplets stream down.**

Nintendo Power
You've finally caught up with the sinister leader of the enemy forces. The Joker flies onto the scene with a high tech vehicle that creates deadly Bubbles. Hit the Bubbles, then aim for The Joker when he stops.

Tank #329 travels from right to left, causing the ground to crumble under its treads. Run along with the Tank and fire at the driver whenever he pops out to throw molotov cocktails. You'll also have to watch out for spiked balls that fall as the Tank approaches.

Avoid contact with the Bubbles that float from the machine. Move to the center of the screen when The Joker stops momentarily. Fire straight up and knock the energy out this flying fiend.

The Clown Prince of Crime waits with his final gag in his Ha-Ha-Hacienda Island Headquarters. You've got to dismantle his massive bat-crushing machine before he gets to the punchline.
The first test is to play this harp. Play it well and beautiful creatures will appear.

Not a very good beginning, kid Nesterus.

Quit fidgeting, kid Nesterus. How do you expect to pass your training if you don’t pay attention?

Listen, Zeus. I toasted battle toads in two days. How long did it take you?

I could never understand mortal eating habits.

If you don’t endure the training, the goddess Pallienna will fall to the forces of evil.

Then let her do the training.

Stop, puny mortal! You have passed through life like a flickering shadow on the wall. Now you must pass three tests.
THE SECOND TEST IS A SIMPLE QUESTION. WHAT HAPPENED WHEN ICAIUS FLEW TOO CLOSE TO THE SUN?

I KNOW THAT ONE. HE GOT WAXED, THEN I THINK THEY TOOK HIS LICENSE AWAY. AM I WARM?

NOT WARM ENOUGH.

YOUR FINAL TEST IS THE TRIAL OF THE TUMBLING MIRRORS.

IS THIS ONE OF THOSE DUMB OLYMPIC SPORTS LIKE THE HAMSTER TOSS OR THE SNATCH A JERK?

OOO! OW! SLOW DOWN! WANT! OUCH!

IF ONLY HE MOVED TO THE LEFT AND SHOT STRAIGHT UP, HE WOULD ENDURE THE TRAINING.

I WEEP FOR THE FUTURE.

I GUESS I REALLY DID HIT THE BOOKS.
THE SIMPSONS

Hat Room

The second stage of your mission to rid Springfield of evil aliens takes place in the Springfield Mall, where you must collect 25 hats before the aliens can get their hands on them. There are hats scattered throughout the mall grounds and on the heads of shoppers. You’ll also discover hats in a secret hat room on the second floor of the mall. After you ride an escalator to the second floor, jump on top of the first ash can and press Down on the Control Pad for about two seconds. You’ll be sent to a small room with five hats in plain sight. Collect the hats and return to the rest of the mall via the ash can in the room.

Jump For Items

There are hidden items and rooms throughout greater Springfield that you can only discover by doing some bizarre things, like jumping repeatedly on an ash can. The second ash can on the second floor of the mall is packed with items. When you jump on it, eventually items will pop out, including coins, hats and a 1-Up!

Coin Room

You’ll earn a 1-Up for every 15 coins that you collect in this adventure, so it’s important to pick up every coin that you see. There’s a hidden coin room in the Krustyland Amusement Park Fun House of Stage Three where you can find five coins. When you see the big Krusty head, drop down and land on its tongue. Collect the 1-Up on the tongue, then press Up on the Control Pad and the A Button at the same time to sink into the mouth. After you collect the coins, you’ll return to the tongue, where there will be a new platform which will allow you to step up and out of the Fun House.

Tent Warp

If you need to backtrack for more balloons in the Krustyland Amusement Park once you’ve reached the end of the stage, you can warp from the last tent to get to Krustyland’s other various tents. Stand on the rightmost windowsill of this tent and press Down on the Control Pad. You’ll sink into the window and end up on the sill of the first tent of the stage. Sink into that window and you’ll move on to the next tent! Then continue your search for balloons. When you’ve collected enough of them, you’ll face off with Sideshow Bob.

Stand on the first can on the second floor of the mall and sink into a hat room.

Jump repeatedly on this ash can to collect a load of special items.
**Two Toad Tag**

If you find that it's easier to get through a particular stage with just one Toad while you're in the midst of a two-player game, there is a way to give one player a temporary break from the action. When the game is over for the player that intends to sit out for a while, let the continue clock tick down to zero. The other Toad will start at the beginning of the stage and go solo against the Dark Queen's forces. When you want to bring the Toad-in-waiting back into play, press the Start Button when the next pre-stage map appears. The second fightin' frog will appear and you'll once again be a mad, bad and crazy team.

---

**I-Up Roundup**

You'll find a 1-Up and a frog-eating shark as soon as you pass the last checkpoint in the wild Gargantua Ducts that make up the ninth stage of the Battletoads' NES adventure. Swim over a spiky barrier, collect the 1-Up and hit the shark with several big Toad punches. You'll earn 2,000 points for every whack. Once the shark goes down for the count, let your Toad fall onto the spikes below and be intentionally defeated. When you start again at the checkpoint, repeat the maneuver. You'll earn upwards of 16,000 points every time that you complete this short loop and you won't lose any Toads since you collect a 1-Up before your Toad hits the spikes. As you continue to collect points, you'll net a 1-Up whenever your score reaches a 100,000 point mark. Extra Toad lives are particularly valuable in the advanced stages of the game. Don't pass up this chance to collect Toads and points.

---

**Wanted: Special Agents**

A popular activity among Nintendo game experts is developing tips and strategies. If you'd like to share your own special tips with us, send them in! Choose your own Agent Number (3 digits) and be sure to include it with your tips. Our address is:

 Nintendo Power
 Classified Information
 P.O. Box 97033
 Redmond, WA 98073-9733
Energy bottles are key to your success in this adventure. You can earn three of these life-replenishing containers in the opening stage. When you start the game, you'll have one bottle. Let your character be defeated quickly, then continue the game. You'll begin again with two bottles. Let your character be defeated once more and you'll continue with the maximum of three bottles. Then set off on your journey. The bottles will fill your life automatically when your hearts are empty.

From Agent #469
Extra Energy

Sound Test
Listen to the game sounds before you play. Press and hold A and B on Controller II and press the Start Button on Controller I. "BGM & SE No. 00" will appear. Press Left and Right to change the number and press A to sample the selected sounds.

You'll begin the game with one bottle
Let your character be quickly defeated.
You'll start with two bottles when you continue
When you have three bottles, start fighting.

From Agent #918
Nine Chances
A long code involving the A Button and Right on the Control Pad allows you to make tracks in this military mission with nine fighters. Choose the Options command from the title screen and, when the option screen appears, move the cursor to the player total. Then press Right three times, A three times, Right three times and A three times again. Next, press the combination of Right then A a total of 18 times. Finally, press Right three more times. You'll hear a tone and the number 9 will appear on the screen. This change may occur before the entire code is entered. If it does, you can start from there with nine fighters.

Key in a long code when the cursor points to the player total in the option screen and you'll have nine fighters.

From Agent #999
Triple Take
You can triple your ninjas in reserve in this adventure. Enter HHHHHHHHHHHHHHH as your password. The number of ninjas in reserve will read as 9. When you lose characters, the digit will count down to 0, change to the number 9 and count down to 0. This will result in your having 15 ninjas in reserve instead of the usual five.

Enter all H's in your password except for a zero in the fourth space from the right and you'll begin with a total of 15 ninjas in reserve.
Freeze And Collect

Here's a trick for Super Mario World pros. You can earn Coins and 1-Ups at a lightning fast rate if your timing is perfect. You'll need Yoshi to pull off the move, plus you'll need an item in your Item Box that is different from the item you're wearing. Enter a course that you have already completed and ride up to a Berry that it is just above Yoshi's mouth. Then release the item by pressing the Select Button and have Yoshi jump so that he eats the Berry and the item at exactly the same time. All of the action on the screen will freeze except for the Coin and 1-Up totals which will mysteriously increase at a rapid rate. Every 100 Coins will net you another 1-Up. After you've collected the maximum of 99 1-Ups, press the Start and Select Buttons to exit the course.

Invincibility Extension

If you're fast on your feet, you can earn eight quick 1-Ups in Donut Secret 2. Climb the vine that is near the beginning of the course and release a Starman at the top. Then drop down to the floor and collect the Starman before it falls into a hole. While you're under the invincible influence of the Starman, run with super speed to a Block near the end of the course. If you're still invincible when you hit the Block, you'll release another Starman. Collect it for extended invincibility and plow through the nearby enemies. You'll earn more and more points for each enemy that you defeat. When you get to and buzz through the vertical line-up of Koopa Paratroopas just before the Goal, each of these flying fiends will net you a 1-Up.

Fifty Ships

Blast off with 50 ships in this two-player adventure! Move the cursor so that it points to the desired number of players. Then press and hold the L and R Buttons on Controller II, press and hold the Select Button on Controller I and press the Start Button on Controller I. You'll begin with 49 ships in reserve.
All The World's A Stage, And You Are The Master

What has the action of an arcade game, the depth of a simulation, the graphics of a work of art, and the sound of an epic movie score? ActRaiser from Enix is the answer to this riddle—a game that has it all.

You are the Protector of a vast land that has been overrun by monsters. Into this world you will venture during the action sequences, which are called Acts. You'll battle evil in castles, caves, deserts and even in the core of the planet. Once the master Guardians are destroyed, the people begin to rebuild their civilization. They will need your help to protect them and to give them direction. There are two battle Acts for each of six regions, and at the end you must face the ultimate test—Deathheim, where all of the Guardians return!

This review covers the Acts of the first four regions. Later Acts and the civilization simulation we'll leave up to you to explore.
ACT NOW, OR FOREVER HIDE YOUR FACE

Your people will not enter an area or raise their level of civilization until you clear away the menacing monsters. When you first reach a region in your Flying Palace, go down and battle the enemy. If you succeed, people will begin to build villages while you protect them. After a time of growth for your people, a second threat shows up that you’ll have to destroy.

4 AITOS
A mountain of peril and the fiery heart of a volcano swell you in the Acts of Aitos. The people of this region require your help to clear their fields of stones and, of course, of monsters.

3 KASANDORA
This desert island has shifting sands and a pyramid full of shadows and danger. The people will need rain to irrigate their dry land plus other gifts received from earlier regions.

5 MARAHNA
Maahna is no tropical island paradise. Your first fight takes place in a steamy swamp while the second place is an ancient temple. Mysteries surround the nearby island.

2 BLOODPOOL
A crumbling bridge and a treacherous castle are the sites of battle in this region. Pay close attention to the requests of the people in order to earn magical items from the monster’s den.

ITEMS TO HELP YOU ON YOUR WAY

The glowing statues in the Acts contain items or bonus points. Most items are guarded or in difficult to reach places, so you must judge if they are worth the effort to obtain.

WHOLE APPLE
The Whole Apple fills all of your depleted Energy Meter bars.

HALF APPLE
The Half Apple fills three depleted energy meter bars.

1-UP
Add an extra life which can be used in the Act stages.

ORIGIN OF MAGIC
Allows one magical spell to be cast at the enemy.

1000 BONUS POINTS
Boost your score with 1000 extra bonus points.

CRUSH
This item destroys all the enemies on the screen when you hit it.

PROJECTILES
Throw sword blades at the enemy for a long range attack.

500 BONUS POINTS
Add 500 extra bonus points to your score.
**FILLMORE**

**ACT 1**

Your duties as Protector of the World begin in the mysterious forest of Fillmore. The birds and beasts have been bewitched and will attack you. Even some of the trees have turned evil. Ride the pulley platforms to cross wide areas and avoid the poisonous thorns. Don’t miss the 1-Up, or the Whole Apple as shown on the map. At the end of the Act prepare to battle a half man, half horse Centaur who harnesses lightning as a weapon.

**FILLMORE**

**ACT 2**

In a hole near Fillmore is a temple filled with dangerous creatures. Make use of the great jumping control of your warrior to leap from ledge to ledge. There are two routes that you can take. The upper route has more items and is easier than the lower route, but it is slower.

**TIPPING THE TREE**

This tree is very much alive and it spits balls of flame at unwary wanderers. Luckily for you, it is a slow moving tree. Run past it and strike the head from behind several times. An accurate sword stroke destroys the fiery ball. Once it is defeated, a platform appears to the right.

**1-UP IN THE TREE TOP**

When you first see the Statue in the tree overhead, you won’t be able to reach it. Proceed to the right and ride the pulley platform back to the left. This is one of the easiest 1-Ups to reach in the game, so don’t leave it behind.

**DODGE THE DOORMAN**

This bony being is best kept at a distance. Strike from as far away as possible and jump backward when he leaps forward. You’ll have to hit him five or six times for victory. Once you’ve won the battle, a door opens up to the right so you can proceed.
**ACT 1 GUARDIAN**

**THE CENTAUR**

Stay to the far left side of the area. When the Centaur charges with his spear lowered, kneel down at the base of the cliff. Step forward as the Centaur stops back and strike several times. If you kneel at the base of the cliff, the lightning from the Centaur's staff cannot reach you.

**POINT C**

**RIDE THAT TREE**

This tree can walk back and forth across the poisonous thorns, which makes it extremely useful. Jump onto the left hand and the tree begins walking to the right. Now hop across to the right hand. When the tree reaches the cliff edge, jump off.

**POINT B**

**LOW BLOWS**

As you climb this long series of ledges, you'll find that some are already occupied. It is both easier and safer to attack from below. The Gargoyle heads will split out balls of lava that roll down the ledges. Move forward at a steady pace to keep ahead of them.

**ACT 2 GUARDIAN**

**MINOTAURUS**

This giant with a bull's head comes straight out of the mythology of ancient Greece. He'll leap up off the screen, then come crashing down on top of you unless you keep moving. Once he lands, Minotaurus hurls his axe. Jump over the axe and land close to the monster so you can strike him with your sword.

**SWORD PLAY**

Your hero can swing his sword more frequently when standing than when kneeling. Use this strategy to attack enemies that require repeated blows to be defeated. Also, if you're in the air and you push the Y button, you'll kneel and slash as soon as you land.
The first Act of Bloodpool takes place on a series of dilapidated bridges that are swarming with foes like red trolls and green giants who throw boomerangs. The graphics are stunning, but if you stop to admire the scenery, your trip will be a short one.

The castle on the shores of the lake must be stormed to avenge the losses of the local people. Monsters mix with murderous machinery for a nerve-wracking challenge. In one area the lights fade in and out, while in another, the platforms disappear.

**血池第1幕**

**POINT A**
**LEAP INTO ACTION**
The green, lizard-like giant will throw its boomerang at you as you approach. Leap over it, then duck as it returns. In this way you can get close enough to the monster to hit it three times to defeat it. You'll meet three of these creatures along the way.

**POINT B**
**SINKING LOGS**
If you stand too long on these logs they will sink into the poisonous lake. Defeat the flying lizard before you jump to the log.

---

**血池第2幕**

**POINT A**
**FAADING MEMORIES**
Remember the positions of ledges, enemies and spike beds so you can continue to move ahead when the lights grow dim and fade out.

**POINT B**
**DRAGO NEWT**
The skeletal creature with the sharp tongue is difficult to defeat because you move much slower in the water. Strike from the greatest distance possible. Also, avoid the lightning spikes by timing your jumps past them.

**YOU ARE THE MASTER**
There is no specific order in which you must visit the six regions, but to enter most of them there is a minimum Experience Level that you must have already attained.

---

**POINT C**
**DANGEROUS 1-UP**
Jump from the Up Lift to the Down Lift near the top of the shaft to reach the 1-Up ledge. The spikes on the top of the shaft will end your journey if you go too high.
**POINT C**

**BACK TO THE 1-UP**

The Guardian is just ahead so a 1-Up can be useful. A green lizard guards the 1-Up and you must cross a bridge of logs that fall away when you step on them.

**ACT 1 GUARDIAN**

**MANTICORE**

Wait on the top right platform until the Manticore is about to jump to the top left platform. Now hop down to the second level. When the Manticore leaps to where you were standing, attack from below. His pattern never varies.

**VANISHING SUPPORT**

The platforms in this room appear and disappear. You will fall if you are standing on a platform as it disappears. Just be patient. Higher platforms always appear shortly after you jump in a lower platform.

**ACT 2 GUARDIAN**

**ZEPPELIN WOLF**

The Wizard becomes a werewolf when he has lost about half of his HP. Both move in predictable patterns. Wait for the Wizard until he’s on a low ledge on the left, then attack. Learn the Wolf’s pattern or attack him during the transformation.
The harsh desert of Kasandora holds formidable foes including Insect Men, flaming clouds and tentacle vines that appear suddenly from the burning sands. At the end is Dagoba, a giant ant.

The people of Kasandora ask for your help when some of them begin disappearing inside a pyramid that they have discovered. Vipers, mummies, statues that come to life and much more await you in these ancient halls. A living sarcophagus is the guardian at the heart of the pyramid.

When the Fire Monster appears, move back up the spine until you're on the same level with the attacker. If it flies above you, it will drop damaging fire drops.

The Blue Warrior has a swift lunge that could catch you off guard. When he stops moving, move to the left out of his range, then stay back to the right and hit him twice when he's vulnerable.

Ride the top lift over to the niche in the wall. The Blue Flame will dog you, so destroy it. In the niche you'll find a 1-Up. Jump down the left wall, pressing to the left to get back to the main hall.

Explosive balls fall from the ceiling in this dangerous hall. The balls are activated by footsteps, so jump past them. Watch out for vipers on the floor and more Blue Warriors with their special lunging attack.
**POINT B**

**SAND TENTACLES**

Wait until the tentacle begins to emerge before sliding down the dune and hacking it with your sword several times. Your first slash should be at your farthest striking distance.

**POINT C**

**DROPPING DANGER**

Blue Apea fly toward you, then suddenly drop from the sky. Walk on the left side of the platform and hit them when they land.

**POINT D**

**INSECT WARRIORS**

The Insect Warriors appear in the caves, fly out, then return to the same cave over and over again. Hit them when they emerge from the cave, then climb to the top of the tower for an item. Make cautious jumps when coming back down the tower.

**ACT 1 GUARDIAN**

**DAGOBA**

Dagoba erupts from the sand at the bottom of two dunes. His pincers will inflict damage, as will the rocks he throws and the spines that rake up through the sand when he sinks. Stand close to the beast and strike him, then jump to avoid the spines. Use your magic to speed up Dagoba's defeat.

**POINT D**

**PATIENCE COUNTS**

When you first see the lift, don't jump on it. It travels down into the sinue before it heads up again. Wait until it reaches the sinue, then make your move. At the top you'll meet another Blue Warrior.

**ACT 2 GUARDIAN**

**PHAROA**

The ancient ruler of this pyramid has taken the form of a golden mask that floats in the air then crashes down where you were last standing. Keep moving to avoid being smashed. You can attack Pharaoh's corners with several sword strokes when it lands on the floor. Beware of the energy ball and arrow that are released each time Pharaoh lands. You can jump over them to avoid damage.

**POINT E**

**RED WARRIOR**

The Red Warrior fires a sword blade projectile at you. The blade travels slowly and it's easy to jump over. Keep jumping until the Red Warrior leaps over you to the right side. Now the path is open to the Guardian.
The mountains of Aitos are as rugged as they are dangerous. Deep fissures cut through the rock and can only be crossed by means of a flying Chariot. Be prepared to meet Fungus Stalks that spring from the steep trails and release spore balls. At the end is a thundering waterfall and the swift Aquatic Dragon.

The volcano of Aitos is a place of fire and shadows. The caverns wind deeper into the heart of the mountain where you'll meet trolls, archers, and monsters that burst into a halo of enemies. It is not as long as some stages, but you must fight for every inch.

The Fire Wheel's pattern is predictable. When it is in the upper right, wait under the ledge. Move out to strike when it touches the ground.
**SPORE ATTACK**

The Fangtooth Stalks send huge balls rolling down the trail. You can jump over them, but it is easier to wait at the edge of the switchbacks where the balls don’t go.

**ACT 1 GUARDIAN**

**AQUATIC DRAGON**

Stand on the middle ledge and use the Sword Projectile to attack the Dragon. By moving to either side of the ledge, you can avoid being hit by the Dragon as it passes by. Aim for the head.

**THE SWORD PROJECTILE**

On the last small ledge to the right is the Projectile. Hit it then jump up and grab it. With the extra range of this weapon the Aquatic Dragon will be easy to beat.

**POINT C**

**POINT D**

**TO THE DRAGON**

**WHOLE APPLE**

**500 BONUS POINTS**

**1000 BONUS POINTS**

**CRUSH**

**WHOLE APPLE**

**PROJECTILES**

---

**MARAHNA**

There's no fun in the sun on Marahna. Your work here includes causing earthquakes and destroying an evil temple.

**ACT 1 GUARDIAN**

**RAFFLASHER**

The Rafflasher is a nightmare plant that rises out of the swamp. Attack from the deck nearby.

Natives with blowguns, men without heads and living statues ging up on you in the tropical jungles and swamps of Marahna.

**NORTHWALL**

This frozen land of Northwall must be thawed and made green, but first you'll have to battle over ice and up a giant tree.

**ACT 1 GUARDIAN**

**MERMAN FLY**

It is difficult to dodge the Merman's attack while in the icy pool.

**ACT 2 GUARDIAN**

**ARCTIC WYVERN**

The Arctic Wyvern may be your fiercest opponent yet. Still ahead is Deathhelm, the ultimate challenge.

Xalla's howled the people of Marahna and it is your job to win them back. Beware of his arrows and ride the platforms with care.

**ACT 2 GUARDIAN**

**KALJA**

When you reach the bubbles, keep jumping so the bubble won't burst.
To save the Zombies from Sabera's wicked spell you must enter her cave, find her, and defeat her in battle. The toughest part may be finding her.

Talk to the Mesia in the outer room and then follow her directions to go to the back of the chamber.

Sabera's chamber seems to be occupied by Mesia, your helper, who says that a sorcerer is at the back of the room. When you go back there you'll find the real Mesia. The first Mesia is actually Sabera in disguise. Hit the fake Mesia with the Sword of Fire three times. Finally she reveals herself and begins to fight.

The real Mesia appears and tells you to go back and fight the fake Mesia, who is really Sabera the witch.

The first Mesia is actually Sabera in disguise. Hit the fake Mesia with the Sword of Fire three times. Finally she reveals herself and begins to fight.

The second Goal by yourself if you're an expert flyer but there is an easier way. Make sure that you're wearing a Cape and take Yoshi along with you. Then jump off the final lift and drift under the Goal with Yoshi. After passing the first Goal, Spin Jump off Yoshi to reach solid ground and run solo to the Goal! Yoshi won't make it, but you'll catch up with him later. This second Goal leads to a vine that extends to Soda Lake.

Bring Yoshi and a Cape with you to the Cheesebridge. You'll need them to reach the Soda Lake exit.

Jump from the last lift while riding on Yoshi and float down just below the level of the Goal.

When you are past the Goal and Yoshi is sinking out of sight, jump off his back using the A Button.

Where's the secret exit from Cheesebridge?
PILOTWINGS

To reach the Helicopter rescue mission you must pass Lesson Four, earning 300 points on four objectives. In Hang-gliding, make small adjustments to avoid over-compensating. After passing the ring once and rising on the air current, turn sharply back to the ring. You must be about 300 feet high to pass through the ring again. While Parachuting, make a long approach to the target across the island. Use the Flare to slow your approach over the dock to the platform. Approach the Jetpack target slowly. When the opening is fully toward you, blast through. Land by watching your shadow. The Light Plane is fairly simple. Go for max points.

STARTROPICS

You must enter a radio frequency code after Chapter 4 in order to move on to Chapter 5. Unfortunately, the letter attached to the manual with the code on it is easy to lose. The code frequency is 747MHz.

GAME COUNSELOR PROFILES

Mike Robertson
Became Game Counselor: July 1990
Hobbies: Basketball, Music
Best Video Game Accomplishment: Finished N.A.R.C. with three men.
Favorite Game: Wizardry

Gayle Wiler

Chad Lykken
Became Game Counselor: August 1990
Hobbies: Skiing, Comic Collecting, Water Skiing
Best Video Game Accomplishment: Finished Final Fantasy Legend in one day
Favorite Game: Nobunaga's Ambition
Heroes in Faria have many hard tasks, but none are as difficult as clearing the four towers. The first tower, Gelvë Tower, was covered in Counselor's Corner Volume 26. Broww Tower is your second great test. The maps show how the stairways link the different floors, but you must also follow the specific route listed below and be wary of one-way doors on Floor 2. First, however, make sure you have the Gold Stone from the first cave. You need it to beat the Scissor Boss at the end of the Tower.

FLOOR 2

Go up to Stairway B, then take Stairway F on Floor 2 and push the Statue on Floor 3. Reverse your steps to the first floor and go counter-clockwise to Stairway D. On Floor 2, take Stairway H to Floor 3 and from H go to I. Stairway J brings you back to Floor 1. Work your way right and down, then walk through the wall to reach Stairway S. S leads to T and that leads to Floor 3 where you can now reach the boss. Attack the three small scissors so you can reach the boss and defeat it. In the next room you'll get the Ring, which refills arrows and HP.
Two items that give many players a tough time are the Diving Suit and the Ladder. Both are on the back side of the map, but you must get the Diving Suit first. Make sure you have the Glasses, then go to the door shown on the map below. Make your way through five rooms and use the Glasses to find the wall safe with the Diving Suit.

The door that leads to the Diving Suit is on the back Map, right side, one level up from the bottom.

Inside are five rooms. The fifth room looks empty, but it isn't. Pel on your Glasses for a better look.

Make sure you have the Glasses, then go to the door shown on the map below. Make your way through five rooms and use the Glasses to find the wall safe, although not what's inside.

Open the safe and take the Diving Suit. With the Diving Suit, you can explore new underwater areas.

The red dot on the subscreen map shows your location. The Diving Suit area entrance is shown above.

The GOONIES II WHERE DO I FIND THE DIVING SUIT?

The water area is reached through the Front Map Ice area. Use your Diving Suit and plunge into the drink.

Where do I find the Ladder?

The Ladder is also on the back side of the map as shown by the red dot. You'll have to work your way down into the Water area at the bottom from the Ice area on the Front Map. To enter the water, just use your Diving Suit. The Ladder is in a series of rooms at the bottom-most left-hand corner. Hit the middle of the wall in the room shown below to get the Ladder.

Swim down a pipe then to the left where you'll find a door leading to the area where the Ladder is hidden.

Hit the middle wall to find the Ladder, and don't forget to pick up the Bomb Box in the room to the left.
They're creepy and they're kooky, and now The Addams Family—made famous by the campy '60s TV show—haunts a whole new generation in a all new movie from Paramount and a mysterious and spooky NES game from Ocean.

GET TO IT, GOMEZ!
Good heavens! Except for Gomez, everyone in the Addams Family seems to be missing. It's time for him to Lurch into action and get to the bottom of Things.

OOKY MOVES
Ghosts and skulls and man-eating plants are just a few of the dangers lurking around the musty, old mansion. Gomez can lilk most of the creeps by pouncing on them.

DUCK DANGER
Gomez is a smaller target when he ducks. He can avoid damage in areas like the Conservatory by ducking, and when he squats he fits through narrow passages.

HIGH JUMP
To reach treasures that are out of Gomez' regular jumping range, use an enemy as a stepping stone. He'll hop the bad guy and bounce up.

YOU NEED DOUGH
To save Morticia, Gomez has to cough up a cool million. So save every time you can find. Bags, bars or bills, it all adds up to pay the hefty ransom.
**Ghoulish Grounds**

What kind of gruesome garden is this? For kids who like to play in crypts, it's the best! The house is locked, and Gomez doesn't have a key. He'll have to jump man-eating plants, skittering skulls and bouncing boos to reach the Crypt on the far right. The Skeleton inside holds the Key.

Rattle this rack of bones by hitting it directly in the skull three times, then pick up the Key. It drops Pocket all of the loot you find. Which of the four doors do you want to try? Two are treasure troves, one holds a crucial item, and one is certain death.

**Enter At Your Own Risk**

Don't say we didn't warn you! If you think the outside is eerie, wait until you see what lurks inside. You'll return to the entry area often as you explore all of the mansion's nooks and crannies. Watch out for the Spiders! They hover over doorways and drop when you near. Stomp to get rid of them for now. When you return, though, they'll be back. The chandelier falls as soon as you enter the main door. Press B to exit quickly, then go right back in and it will be gone.

**How Do I Rescue Thing?**

Go up the stairs and enter C from the landing on the right. Watch out for a falling sword!

*Run the gauntlet of guards, then jump to the shelf on the upper left.*

*Press Right and jump to bounce off the bed to the shelf on the right.*

*It's Thing! When you rescue him, he offers to give you a hand.*

*The Skeleton inside holds the Key.*

*A Helping Hand*

When you Select Thing, he circles around Gomez, making him invincible. You can use Thing only three times, though, so it's wise to save him for the most difficult areas that come near the end of the game.
**Ghoulish Grounds**

What kind of gruesome garden is this? For kids who like to play in crypts, it’s the best! The house is locked, and Gomez doesn’t have a Key. He’ll have to jump man-eating plants, skittering skulls and bouncing boos to reach the Crypt on the far right. The Skeleton inside holds the Key.

**Enter At Your Own Risk**

Don’t say we didn’t warn you! If you think the outside is eerie, wait until you see what lurks inside. You’ll return to the entry area often as you explore all of the mansion’s nooks and crannies. Watch out for the Spiders! They hover over doorways and drop when you near. Stomp to get rid of them for now. When you return, though, they’ll be back. The chandelier falls as soon as you enter the main door. Press B to exit quickly, then go right back in and it will be gone.

**How do I rescue Thing?**

Run the gauntlet of gaunts, then jump to the shelf on the upper left.

Press Right and jump to bounce off the bed to the shelf on the right.

It’s Thing! When you rescue him, he offers to give you a hand.

Go up the stairs and enter C from the landing on the right. Watch out for a falling sword!

**A Helping Hand**

When you select Thing, he circles around Gomez, making him invincible. You can use Thing only three times, though, so it’s wise to save him for the most difficult areas that come near the end of the game.

**Hint:** One of the gravestones leads to a crypt. Stand on the gravestone and press B on Joy pad to enter.

**Hint:** Press the G button to enter the creepy Crypt on the edge of the cemetery inside you’ll find lots of gold, a booby trap with a Key, and four mysterious doors.
WHERE IS WEDNESDAY?

Wednesday's captors are keeping her on-ice—enter the Freezer to free her. Enter the Kitchen, dodge the flying silverware, jump the mice, and make your way to the Freezer entrance on the lower left. Now get ready to slip and slide! When you find Wednesday, she's chilled to the bone. Take her to the furnace to warm her up.

**This might be useful...**

Be sure to pick up the Umbrella from the Conservatory and save it for a rainy day. It works like a parachute to slow and control your fall. You never know when you might walk off a ledge.
WHERE IS GRANDMA?

Grandma is being held in the Furnace and, boy, is she ever hot under the collar! Try to stay out of scalding water as you work your way over and up to her.

WHERE ARE THE SECRET ROOMS?

Four Secret Rooms hold cash caches that will help you meet the million-dollar ransom demand. One room is on the Landing, one is in the Dining Room, one is in the Attic and one is in the Pond. It's easy money, so take the time to search for the rooms.

The first Secret Room is on the Landing. Stand below the empty picture frame and jump. While Gomez is airborne, press Up and A at the same time.

The Attic is confusing. Go to the door at the far right and exit to the rooftop. Jump on the Cabinet and press B to enter the Secret Room.

Take the empty Bucket to the Bathroom, pull the rope in the upper left, and fill the Bucket. Douse the Rim in the Dining Room and press B.

After you find the Spanner in the Pond, it looks like you’ve hit a dead end. If you continue through the narrow tunnel, though, you’ll swim into a Secret Room.

Grateful Grandma will help you fix the water and steam vents keep Gomez hopping.
HOW DO I TAKE THE BITE OUT OF THE BEARSkin RUG?

It's dangerous to wake bears! When you're near the Bearskin Rug in the Gallery, it comes to life.

1. Scroll left until you wake the Bear up, then turn and run back to the right. Stop beneath the Trap and quickly turn to face the charging Bear. Jump off the Bear's head to knock the Trap down onto him.

2. Once the Bear is Trapped, he's stuck there for the rest of the game. He'll still be there if you leave and return. Now you can go to the far left, climb the shelves, and jump along the portrait frames to collect all the Money Bags.

HOW CAN I GET TO THE WOODS FROM THE BALLROOM?

To get to the woods, you must exit through the large window in the Ballroom. You can't get to the window, though, until the couple standing there moves. What should you do? Start by going to the Library.

Go back out through the Gallery and climb the stairs to the Ballroom. When Lurch plays, the couple dances away from the window. Now stand in front of the window and press B to enter the Woods.

Go all the way to the left side of the Gallery and continue into the next room. Watch out for falling swords! Enter the Library through the door there and pick up the Music Manuscript from the shelf under the frame. Next, jump up and pull the Rope on the right to ring for Lurch, who shuffles in and takes the Music Manuscript. He tells you that he's going to play it in the Ballroom.
HOW CAN WE OPEN THE DOOR TO THE ATTIC?

First, rescue Wednesday. When she recovers from her chilling experience, she will give you a key that opens the door to the Attic. Bypass the rooms you've already explored and head for the stairs.

WHAT INGREDIENTS DO I NEED FOR THE SHRINKING POTION?

Poor Pugsley! He's stuck in a secret passage, and you have to make a special potion to get him out. The secret recipe calls for three special ingredients, which you have to find.

**A BLUE EGG**

The Blue Egg is in the tree on the screen where you started, but its door is locked. The Key is in Wednesday's room, and getting it is no easy task. Be as quick as possible, avoid the Dolls, and jump up to get the Money and Key. Enter the tree and climb legs to the Egg at its top.

**A BONE**

A second ingredient, the Bone, is in a room off the Crypt. Enter the upper right door and run to the left. Climb up the three ladders, then jump on the bone as it moves above you. Go to the platform near the ceiling and inch over to pick up the Bone.

**A PIECE OF FOG**

To get the final ingredient, a piece of Fog, you have to activate the Fog Machine on the roof. It's not working now, but Grandma can tell you how to fix it. If you find the Spanner first, get the Spanner from the Toy Room, then go through the Woods and jump into the Pond. Avoid Jellyfish and swim to the right until you come across the Spanner.
Hi ya gang! Welcome to Acme Acres! Unfortunately, we've just come back from the Animation Festival to find out that Montana Max has kidnapped our friend Babs. Can you help us rescue her?

Toon-A-Round
Grab the Toon-A-Round to switch to a different character.

Stage 1-3

Timer
Freeze time with the Timer.

Troubled Times at Acme Acres!
Toons To The Rescue!

Shirley, a well-known psychic, has looked into the future and now offers Buster the chance to select one of three friends to help him on the journey to come. Each pal has a special, useful ability, but he can choose only one of them to take along for the entire game. When Buster picks up a Toon-A-Round, his buddy takes over, and when the buddy finds one, it's Buster's turn to step back in. The two can switch back and forth whenever they find Toon-A-Rounds.

PLUCKY DUCK
This troublesome duck is always causing mischief for his friends and then talking his way out of it. A great swimmer, Plucky can also fly for a short time by flapping his wings.

DIZZY DEVIL
They don't call him Dizzy for nothing! He'll leave you spinning as he breaks blocks or attacks groups of enemies with his whirlwind moves.

FURRBALL
A real cool cat! Furrball has some of the best moves when it comes to avoiding trouble. Try exploring new areas with his special skills.

STAGE 1: Field Of Screamz
The search is on! As Buster and his pal explore Acme Acres, they'll find Carrots and Balloons. They can trade Carrots for 1-Ups when they meet Hamton, so collect as many as possible. The Balloons are valuable, too. They hold special items like Happy Hearts, Toon-A-Rounds and Timers.

Bonus Balloons!
It's nobody's birthday, but there are lots of the special Balloons bobbing about. Pop them and pick up the items they leave behind.

Collect Carrots
Carrots can be traded for 1-Ups at Hamton's House. Thirty carrots are worth a 1-up!

Happy Heart
Take an extra "hit" if you have a Happy Heart.
You'll have to float past your enemies both over and in the ocean in this watery area of Acme Acres. Don't worry about getting a little wet behind the ears, because the Tiny Toon pals are great underwater.

The sand pits and the nasty sea snails will cause you double the trouble if you're not careful here. The Spinys can't be defeated either.

It's a long swim through here! For a quick break from the action, look for the special pockets of air that contain balloons or Hamton's hideaway.

Aye matey, the ocean's no place for sea scruff! Defeat this shipload of pirates and their extra large crew of rats or you'll never see land again!

Dizzy's Spin Attack works great against these floating enemies.

Carrots, Carrots! Stock up on carrots before you see Hamton.

Let's eat our way to visit Hamton.

Safe Areas

Take a quick break behind a mast, then time your jumps accordingly.
**Whirlpool Attack**

Once in the water, any of the characters can send out a mini-whirlpool to attack his enemies. Just press the B Button and watch your enemies spin away.

You must have full power to create a Whirlpool. If your meter is low, wait several moments for it to fill up completely.

**Which Is Best?**

Each character is different. It will take practice and timing to be able to use all three characters proficiently. Only take the Toon-A-Round if needed.

Great hang time!

Will it help to Toon-A-Round from Plucky to Buster?

---

**Jump Or Duck?**

Two ways to get around enemies.

---

**Invincible Enemies**

Jump over them guys.

---

**Which Way?**

If you have lots of carrots, take the high path to visit Hamton.

---

**Hamton’s Place**

Dun’t bother to visit Hamton unless you have at least 30 Carrots.

---

**STAGE 2-3B**

Be patient. If you stand still and wait here, when he throws the Anvil it will fly over your head. Without the Anvil, he’s easy to beat.

---

**Anvil Attack**

---

**Spikes Ahead**

Move fast and watch out for these spikes.
**STAGE 3: Weird Forest**

This is no ordinary walk in the woods for Buster and his friends. Who knows what could be flying (or lurking) around every corner or behind every tree. Will you be able to find your way out safely or will you become a permanent part of the forest?

*STAGE 3-1*

The berries will help you just like the carrots did. Grab all you can before you see Hamton.

*STAGE 3-2*

These spooky trees have a bite that's just as bad as their bark. Can you get by their all out aerial attack?

*STAGE 3-3A*

Batty likes it just fine down here in the underground cavern! You'll want to get through here fast before you become a feast for Batty and his friends.

**Owls Clear Here**

Move right until the owl is scrolled onto the screen. When he attacks, it's easier to time your jump.

**Wacky Trees**

A flashing face will warn you of the next attack.

**Two Routes, One Exit**

You can take either route to get to the exit, but you'll need Furrball to take the high road.

**Underground Water**

Don't sink, swim. You can paddle under the blocks here.

**Prehistoric Fish?**

Float at the top to avoid these hungry fish.

**Spiked Traps!**

Timing is important here.
No Easy Way Out!

These animals are no friends of yours! Because there are a lot of flying creatures here in the forest, you may want to avoid them by sending Furrball over the tree tops or by using Dizzy's whirlwind ground attack.

If an enemy can't see you, he can't hurt you.

Use the whirlwind attack to fight off lots of enemies.

Skunk Crossing

Gleat these guys when they're standing still or your nose will regret it.

Watch Your Step

Wait for the third block to fall before jumping.

Cash In Time!

Now's the time to use all those saved carrots and berries.

Safe Spot

Take a break and plan your next moves here.

STAGE 3-3B

STAGE 3-3C

Only Dizzy can get to the location marked A on map 3-2.
The Last Resort

We didn't want to make the trip too easy for you, so we grouped the tough guys (and gals) in a separate criminal lineup that you can turn to when you're really stumped by a character at the end of a stage.

Ooooh! I just love all these cuddly wuddly animals!

---

**STAGE 1-2**

Stay away from Emyra until the exit door opens or you'll find yourself squeezed back to the beginning of the stage.

**STAGE 1-3**

Dr. Gene Splicer will have you in stitches if you get hit with his evil! Stand on the sides of the floor area and jump as he heads toward you.

**STAGE 2-2**

These platforms can be tricky, but if you wait for Emyra to send you her effectives, you can make a quick dash to the exit door.

**STAGE 2-3**

Captain Clew is no barrel of fun here! Start at the bottom of the screen and work your way up. Once on top, hop him quickly then go back down.

**STAGE 3-2**

It's hard to outrun Emyra so try to stay off the floor. You can jump onto the single blocks with a short run and hop.

**STAGE 3-3**

Watch the pattern of the sliding rocks. If they move to the right Fido will fall on the left block or vice versa if they are moving left.

**STAGE 4-2**

Emyra's waiting for you at the bottom of this shaft so plan your jumps carefully. If you fall, move to the left to land in a safer spot.

**STAGE 4-3**

Kong is king of the mountain here! The mini-bombs will only fall on the right girder so stay on the left until you see your chance to bag 'em.

**MONTY'S MANSION**

Watch out for Monty's knockout punch! Give him a taste of his own medicine by standing on the gloves to bop him. Maybe he'll learn his lesson now!
Back in the city you’ll have to keep an eye out for objects falling out the windows above you!

STAGE 4: Boomtown

STAGE 4-1

STAGE 4-2

STAGE 5: Wackylanld

STAGE 5-1

STAGE 5-2

STAGE 5-3

STAGE 6: Monty’s Mansion

STAGE 6-1

STAGE 6-2

Some pretty strange creatures can be found here in Wackylanld! Can you put Gogo-Dodo back together again?

It could be lights out for Babs unless Buster can get through Monty’s mansion. You can almost hear Babs now, so be extra careful because Monty has set a lot of traps for you along the way.
Put the lid on Scat with Buster bouncy.

Make good jumps here, but watch your head!

Watch out for Lubelle! She's always in a hurry.

It's just a drop in the bucket for Plucky.

What kind of wacky wonder could this be?

Who turned out the lights, Jueves?

It's a long slide to safety.

STAGE 6-3

STAGE 6-4

You've got to think quick up there.

Use a duck and jump pattern to get past those obstacles.
This one’s going to be tricky to get.

GoGo has fleely gotten himself together!

It's a long climb to the top.

Buster can’t quite make the leap, but Furrball can.

STAGE 4-3

STAGE 6-5

Golly! Will Monty ever learn that the Tiny Toons are just too loony to be beat?

A trio of impressive follow-ups to NES hits top the list of Game Boy releases this month, including Samus Aran’s mission to rid the galaxy of a Mutant menace on SR388, the home planet of the Metroids.
The Galactic Federation has sent an emergency order to space hunter Samus Aran. The Metroids of planet SR388 are growing in number and strength. At their current rate of evolution, they'll pose a threat to all peaceful citizens of the galaxy in mere hours. It's up to you to take Samus through the dangers of the planet, search for cybernetic Power-Ups and destroy the Metroids before they spread!

**SAMUS ARAN'S CYBERNETIC SUIT**
- Helmet
- Infrared View Scope
- VAHA
- Normal Suit
- Weapons Hand
- Left Hand
- Big Jump Boots
- Weight: 18000cm
- Weight: 90kg

**THE MENACE MULTIPLIES!**

The Galactic Federation has sent an emergency order to space hunter Samus Aran. The Metroids of planet SR388 are growing in number and strength. At their current rate of evolution, they'll pose a threat to all peaceful citizens of the galaxy in mere hours. It's up to you to take Samus through the dangers of the planet, search for cybernetic Power-Ups and destroy the Metroids before they spread!

**CONTINUE YOUR QUEST**

The Game Pak has a battery backup which can hold the progress of as many as three players. Touch a Save Point then press Start to record your accomplishments so that you can turn the game off and return later to the same point.

The Metroids are quickly evolving! Stop them before it's too late!
Cybernetic Power-Ups are hidden in the dark tunnels and ancient ruins of SR388. Find them and Samus will become an even more powerful threat to the Metroids. She begins with 99 Energy Units and 30 Missiles.

### HIGH JUMP BOOTS
- Strap on these pumped-up Power-Ups and you’ll double the height of your jump.

### SCREW ATTACK
- Buzz through clouds of airborne aliens with the incredible cutting power of this essential item.

### VARIA
- When you discover the power of the armored Varia, you’ll be able to take twice as many hits.

### ICE BEAM
- Send the small creatures of the planet into deep freeze with a jolt from this super strong beam.

### SPIDER BALL
- When you activate the Spider Ball, you’ll be able to defy gravity and roll along walls and ceilings.

### SPRING BALL
- Defeat a bouncing ball-like creature and you’ll earn the ability to jump when you are in the shape of a sphere.

### SPACE JUMP
- Find the Space Jump and you’ll be able to leap over incredible barriers by jumping from a position in mid-air.

### WAVE BEAM
- This blasting beam spreads your shots over a wide area so that you can hit creatures in the air and on the ground.

### SPAZER LASER BEAM
- You’ll be able to send out three Beams at once when you Power-Up with this new cybernetic space weapon.

### PLASMA BEAM
- The Plasma Beam is your most powerful weapon. It can cut through solid walls with a single blast.
The Planet SR388 contains a complicated series of tunnels, caves and hidden passages. Explorers have found the remnants of an ancient civilization in many of the planet’s darkest reaches. Search carefully and blast the walls, ceilings and floors to uncover secret corridors. As you defeat the Metroids, earthquakes will occur, causing the deadly liquid in some areas to drain and open up new passages.

PHASE I: TOUCH DOWN

You'll touch down in a wide, vertical cave that opens upward to the planet's surface. There's a single Metroid in the first small series of tunnels to the right. After you blast it, an earthquake will occur, opening up a passage to more underground tunnels.

HOME IN ON THE SHIP

Make sure that you know how to get back to the ship at all times. If you are low on Energy or Missiles, you can return and re-energize.

FIRE AND FALL

Fire down as you drop and you will break through the blocks of this chamber.

FILLING STATION

After you've defeated the first Metroid, roll into the wall here and take advantage of the opportunity to refill your Energy and reload your Missiles.

SHORTCUT

When you drop down to the first block, you can roll to the right through a hidden corridor. Use it as a shortcut through the zigzagging first section of the tunnel.

AN ALPHA METROID AWAKES

Your first encounter with the most sophisticated species of SR388 will be with a relatively primitive Alpha Metroid. It will charge as soon as it senses your presence. Hit it with five Missiles and you'll blast it out of existence.

GAME BOX

PHASE I: TOUCH DOWN

Begin your mission to seek out and eliminate the mutant Metroids.
Once you defeat the first Metroid, an earthquake will shake up your surroundings and cause the deadly liquid in this area to seep down deeper into the planet’s open chambers. Proceed cautiously and search for four more malicious Metroids. Their demise will trigger another passage-opening quake.

**THE LIQUID LOWERS**
You’ll find that causing quakes is the key to planetary exploration. This area opens up after the first quake which is caused by the destruction of an Alpha Metroid.

**DEADLY DROPS**
Keep an eye open for Gravitts as you wind down through this passage. They hang onto the ceiling and drop as you pass under them. You’ll be able to avoid contact with them if you’re quick.

**ANOTHER PHASE**
The liquid in this area will stay here through two quakes. The third quake, though, will drain the liquid and allow you to continue your search in a new section of the planet.
**METROID MUTATIONS RULE THE PLANET**

Alpha Metroids are the most primitive of this newly evolved alien species. Take a look how Metroids can look after more mutations.

**GAMMA METROIDS**
These creatures are much larger than the Alphas and they attack intruders with stinging lightning bolts. Hit them quickly.

**OMEGA METROIDS**
A fast and frenzied flight will ensue when you encounter this highly advanced creature. Be ready with Missiles.

**ZETA METROIDS**
The fire-breathing Zeta Metroids are equipped with armor on their lower bodies. You’ll only hurt them by attacking from the side.

**QUEEN METROIDS**
The leader of the Metroid mutations is a powerful creature with strong armor. You may not have enough Missiles to destroy it.

**CHUTE LEECH ATTACK**
While they look relatively harmless, the Chute Leeches in this area can cause a lot of damage if you’re not careful. They fly up and float down in a wide, zig-zagging pattern. Watch out!

**NO SWIMMING**
Don’t slip into the liquid! If you do, you’ll sink quickly and lose Energy at a lightning fast rate. This stuff disappears after the second quake.

**CLIMB WITH CAUTION**
Watch for creatures that crawl along the ledges of this vertical chamber as you make your way up. You can blast them from other ledges, then move on unhurt.

**FIRE ON THE CRAWLING CREATURES FROM NEIGHBORING LEDGES.**
This section of the planet is packed with Power-Up items. Many of these special cybernetic tools will allow you to enter otherwise inaccessible areas. Learn to use every item in your arsenal to its fullest and you’ll be able to explore the darkest corners of the planet. There are also several Metroids in the area. Destroy them and you’ll trigger a passage-revealing quake.

**ROLL AND WAIT**

Once you have the Spider Ball, you’ll be able to roll along the ceilings of the planet’s caverns. Watch for enemies, though, and wait for them to fly by. If they hit you, you’ll fall.

**BLAST THE ROCK**

The only way to pass this barrier is by using an explosive. Set a Bomb next to the rock. Then roll through the hole.

**GULLUGGS CIRCLE**

Several Gulluggs fly in small circles here. Wait outside of their flight patterns and fire repeatedly.

**ENERGY COLLECTION**

Gawrons fly out of their nests in this area one at a time. Blast them when they emerge and collect the Energy that they leave behind.
**SPECIAL SPIDER BALL TECHNIQUES**

If you're rolling on level ground, switch to the faster standard sphere.

If you're falling as a sphere, change to the Spider Ball and grab the wall.

**FILL UP ON THE FLY**

If you need to reload your Missiles, roll to this point and they'll max out.

If you've got the Spider Ball, you can fill up on Energy at this point.

**ALPHA METROID**

Hide under the ledge and fire up at the Metroid when you emerge.

**BOMB AND BOUNCE**

Use a Bomb to-propel yourself upward, and you'll fit through this small hole in the wall.

**BLAST THE BUSHES**

The bushes are loaded with damaging thorns. Blast them with your beam if they get in the way and you'll weed whack 'em. The liquid can't be blasted.

**FALL FOR THE SPIDER BALL**

When you drop down into this area, you may be wondering how you're going to get back up. Luckily, the Spider Ball is here. Use it to travel along the wall and roll out of the chamber!
PHASE 3 CONTINUED

These sections are ripe with Power-Up items and Metroids. Make sure that you hit all of the passages and come prepared. If you're low on Energy, return to the ship or an area with an Energy Tank and refill before you fight the Metroids. After you take care of the Metroids, a quake will occur.

BLAST THROUGH FOR BOMBS

Hit the door that blocks this area with five Missiles and you'll reach the Bomb item. With this valuable tool you can create up to three explosive devices at once. Bomb the floor and you'll earn 10 more Missiles.

SAVE YOUR PROGRESS

Touch the top of the Save Point and press the Start Button to record the progress of your mission thus far.

TAKE A BREAK

This area features an instant Energy refill. Take advantage of it whenever you're low.

SAND BLASTING

This area is filled with loose sand. Blaze a trail through it with your Beam.

ALPHA METROID

If you've got enough Missiles, you should make short order of this Metroid.
**MISSILE MANIA**
Hit the barriers with a beam blast and collect Missiles here.

**ROLL THROUGH THE WALL**
Once you defeat the enemy on the wall, stand on it and roll to the right.

**ICE BEAM**
You’ll freeze the non-Metroid enemies on SR388 with one shot once you’ve picked up the incredible Ice Beam.

**Fry the Fly Throwers**
Hit the Fly Throwers before they hit you as you make your way up this vertical passage.

**ALPHA METROID**
Watch for the dangerous bushes as you’re going after the Metroid that is holed up in this corner.

**TAKE A TANK**
As soon as you roll through the wall, you can score an Energy Tank for an extra 100 Energy Units in reserve.

**Bomb and Move**
You can get to the Missile by making a Bomb next to the barrier and rolling away as it explodes.

The adventure goes on! There are several more sections of SR388 to explore and most of the mighty Metroids still remain. Explore carefully and make a map as you go!
U.S.A. 1985 A.D. Three years before the battle of the First Ninja Gaiden... Jacquio still sleeps... but the first stirrings of the Forces of Evil are heard. The minions of Jacquio descend upon New York in their first attempt at conquest. The city cowers in despair until a young Ninja in training, the last of the Dragon Clan, steps forward to meet the challenge. He is Ryu Hayabusa... his Ninja training has yet to be put to the test and he stands alone, but he is firm in his resolve that Evil must not triumph...
STAGE 1

A welcoming party awaits Ryu on the streets of New York. Here's the place to warm up and try a few moves.

STATIONARY ROBOTS

The good news is that these robots don't move. They will fire missiles as Ryu gets close. Creep low to avoid them, then try out your Fire Wheel. Remember to keep your head down!

A LITTLE MORE DANGEROUS

A column of flames remains after you hit these mines. Don't touch!

ITEMS & ABILITIES

Beware! A slash with the sword does not Power-Up Ryu the way it does in later games.

Press Up and A to throw your Grappling hook. It works only on certain walls and ceilings.

Tools of the Trade

FIRE WHEEL
Press Up and B. Each use takes one Ninja Power.

1-UP
This item gives Ryu another life.

LARGE POTION
This increases Ryu's life meter by 4 bars.

SMALL POTION
Ryu gains two life bars from this.

STAGE 1 BOSS

Also a Cyborg, he jumps to the ceiling and searches for Ryu. When he jumps up, stand still and wait for him to stop moving—that means he's about to drop. Then turn, dodge, and attack when he hits the floor.
STAGE 2
This area is full of flames and fire wheels. This is the place to work on your timing. Use your Grappling Hook to work your way up to the top of the building. There is a 1-Up, but you might want to let this one go.

FLAMORGANS
They shoot fire along the floor, so be careful and don't get burned! Wait for the fire to come to you. Jump it, they attack!

CONNOROCKS
These guys carry shields that you can't penetrate. The trick is to get close to them and then turn your back. Let them come to you, then turn and strike in the same instant.

STAGE 3
Now things start to get a little more difficult for Ryu. The Grappling Hook and hanging skills are necessary in this stage. Press Down and A to let go of the wire or to jump down from pipes.

HOSTILE FIRE WHEELS
When it swings away, jump onto the box. Then jump off to the right. This area will take some practice!
STAGE 2 BOSS
Watch out for Gregory and Jack! Jack is the little guy, and you can't beat him. If he grabs your leg he'll really slow you down! Stay out of his way. Dodge and hit Gregory. Use the platforms to stay clear of Gregory.

DON'T STOP
He who hesitates is lost! Just keep running!

STAGE 3 BOSS
Colonel Allen has a machine gun that he fires at a 45 degree angle. A frontal attack won't work. Hang from the ceiling so he'll shoot up, then drop and attack. Repeat.
This is a tough area. There are lots of enemies and lots of distractions. Don't let the aquarium in the background throw off your concentration, and use the lightning flashes to light your way.

**STAGE 4**

**A TRIPLE THREAT**
At the beginning of this stage you must fight a robot and a ninja while deadly drops of liquid fall from the ceiling. Move slowly. Fight the robot first, then take on the ninja.

**THUNDER AND LIGHTNING**
You'll have better luck in this area if you use the platforms—but they're hard to see! Use the lightning flashes to light your way.

**STAGE 5**

This is the last area and it has the last boss. Not all of it is shown here, but this is enough to get you started. Ryu must use all the tools and skills he has acquired for this, the most difficult of battles.

**THE LASER CANNONS**
This area contains a difficult combination of enemies. The laser cannons can be destroyed only when they are open between shots, so keep jumping and keep facing away from the cannons.
This is Evil Nobleman Whokisai and his Boomerang Fan is a formidable weapon. First he flies and throws ninja stars twice. Stay on the ground and dodge these.

PLUMBING PROBLEM

Been practicing with your Grappling Hook? Good, because you'll need it here. The water is rising, so move fast and carefully. And remember, don't stumble or you will get wet.

At last you face the Commander of the forces of Evil. You must rely upon your wits and the skills you have learned thus far to defeat Emperor of Darkness. Good Luck!

But wait! Could it be that your victory will disturb the sleep of the most Evil Force of all?
Hudson’s Game Boy adventure is much like their second NES island escapade. Princess Leilani’s sister, the equally regal Tina, is in the evil clutches of a Witch Doctor and his miserable monsters. Her only hope is Master Higgins, the young hero who was once called upon to rescue Leilani herself.

Higgins will explore eight exotic islands as he searches for Tina. Each Island has five stages and its own Island boss, sent by the Witch Doctor to guard against intruders. The stages become progressively complex, and each island is more difficult than the last. Begin the adventure on Fern Island.

**SET SAIL FOR A TROPICAL ADVENTURE**

**FERN ISLAND**
Begin your journey here on Fern, the easiest of all the Islands.

**LAKE ISLAND**
Are you ready to take the plunge? It’s easy for swift-swimming Higgins.

**DESERT ISLAND**
Don’t expect to find Desert Island deserted. It’s one vast sand trap.

**ICE ISLAND**
Higgins gets a chilly reception when he sets foot on this big iceberg.

**CAVE ISLAND**
The eggs-ceptional hunts up in a network of underground caverns here.

**CLOUD ISLAND**
Is Higgins’ head in the clouds or will he find traces of Tina here?

**VOLCANO ISLAND**
Lava beds and hot-tempered hooligans make Higgins hot under the collar.

**DINOSAUR ISLAND**
It’s a dino-rama! Hurry up, Higgins! Find Tina before it’s too late.
THE TREACHEROUS TROPICS

Tremendous forces—some natural, some not—add to the danger of Higgins’ mission. Stay on your toes at all times to avoid enemies, collect eggs, and watch out for drop-offs. The wicked Witch Doctor has conjured up all sorts of trouble, and that’s too bad for Tina!

FRIENDLY FACES

The enemies posted by the Witch Doctor are mean and many, but don’t despair—you aren’t totally alone out there. If you’re observant and quick, you’ll find lots of useful items that will give you a sporting chance of finding Tina and whomping the Witch Doctor. Collect as much fruit as possible to restore time, build points, and stock your arsenal.

SPECIAL ICONS

SPRING FROM EGGS!

Use the firepower of the Dark Camptosaurus to destroy huge Boulders.

The Light Camptosaurus looks different, but it has firepower, too.

The Elasmosaurus is sluggish on land but super speedy in the water.

A Clover summons the rare Pteranodon, which flies Higgins to safety.

SAVE IT FOR A RAINY DAY

Between stages, you can store items in your inventory and select others for the coming stage. For example, if you’re beginning a stage that has lots of water, you can store a Camptosaurus and select an Elasmosaurus if you have one in inventory. Hammers become more and more scarce as the game progresses, so collect as many as possible early on and store them for later.

VOLUME 31 69
FIND THE HIDDEN KEYS

Special hidden Eggs contain Keys to secret rooms where you can find bonus fruit, 1-Ups and even warps. You won't see the Eggs until you make them appear by either throwing Hammers or jumping up and down. Act quickly to use the Keys before they float away.

WHAT'S WAITING IN THE KEY ROOM?

Finding the Key Rooms can be critical to your success. The clouds hide lots of fruit, and the Dinosaurs are especially generous with adventurers who find the special Keys. Even though searching can use valuable time, it's usually worth it. When you know where they are, of course, it's easy to find them.

WHICH EGG WILL YOU CRACK?

When you finish stages, you'll enter a room where Eggs circle above. They contain either bonus points or 1-Ups, and you get to crack only one. Their contents are randomly placed, so rub your rabbit's foot before you choose. Maybe you'll get lucky and find a 1-Up.

PILE UP POINTS

You can really rack up the points by finishing a stage without a Hammer or with a Skateboard, and if you're riding one of the Dinosaurs and find a Flower in an Egg, you'll score big bonus points, too.
As if the creatures you meet during the stages aren't bad enough, you'll have to beat their boss before you can move on to the next island. And, at the end of the eighth island, you'll find the biggest boss of all. You'd better be prepared and practiced before you face that fiend!

**BIG, BAD BOSSES**

- Fire before the centipede blinks and moves from upper right to left.
- Fire before this wall-climbing hulk has a chance to get his feelers out.
- Keep treading water. Fire when this crabby crustacean lifts its shell.
- The scorpion moves from above to below. Shoot when its tail is up.
- The final boss is a wasp with a wicked sting. Beating him to buzz off is a tough task!
- Keep your head out of the sand! Shoot before the pinchers reach you!
- What a mean flying machine! Jump from cloud to cloud to avoid its fire.
- Stay on the center platform and fire when the bug lands right or left.
- Surfaces are slippery. Fire when Oedo forms on the right or left.

**STALK THE WOLF**

Another way to earn bonus points is to hunt down a Wolf. Flowers indicate where Wolves will appear, so watch for them. Find a Flower and wait for the Wolf to emerge. Take him out with two hits. When he's gone, a little Game Boy will show on your screen, and you will score 1000 bonus points. When you become a skillful hunter, you can amass serious points and be well on your way to tracking down Tina and taking on the Witch Doctor.
Castlevania II: Belmont’s Revenge

Ten Fighters
You can blaze a trail through the vampire-ridden castles of Soleiyu Belmont’s Game Boy adventure with ten chances instead of the usual three. Enter a password with Candles in the first two positions and Hearts in the second two positions. When you begin your battle, pause the action by pressing the Start Button. You’ll have nine fighters in reserve.

Hidden Rooms
There are secret chambers in each of the first four castles that you’ll explore. You’ll find them by climbing up through the ceiling. The photos below show ropes that lead to these chambers. Continue your climb on the ropes when you reach the ceiling and you will enter hidden chambers that house such special items as Crystals, Hearts and weapons. Two of the ropes in the pictured Crystal Palace area lead to separate hidden rooms.

Sound Test
The tunes behind Castlevania II: Belmont’s Revenge can be singled out in a sound test. Enter Hearts in all four positions of the password and the tune titles will appear. Press Up and Down on the Control Pad to select the different pieces, press the A Button to start the music and press the B Button to stop it.

SPANKY’S QUEST
Stage Select and Sound Test
Our agents have discovered passwords for this puzzler that allow you to begin on any stage and to listen to the music and sound effects before you play. Enter 0119 as your password to activate the Stage Select. Then press Up and Down on the Control Pad to change the stage number and press the Start Button to begin. The Sound Test can be accessed if you enter 0117 as your password. You’ll be able to choose from background music and sound effects.

Crystal Castle
Cloud Castle
Plant Castle
Rock Castle

Enter 0119 as your password and you’ll be able to begin in any of the game’s stages.

Use the password 0117 to call up a test of the assorted sounds of the game.

**COMING SOON**

The crew of the Starship U.S.S. Enterprise is beaming down to a Game Boy near you in an adventure that is completely different from the recent Star Trek release for the NES. It includes action scenes in space and on planet surfaces.

Gradarius: Interstellar Assault is another upcoming sci-fi thriller from Konami. This one is quite similar in style to its Game Boy predecessor, Nemesis, and to the Gradarius games available for the NES and Super NES. It opens with an exciting chase through a rocky area and continues through alien ruins and other intriguing space settings.

Now that they’re movie stars and have their own NES game, the creepy, kooky Addams Family are on their way to Game Boy with an all new adventure that emphasizes action and humor.

**TOP 10**

1. **Super Mario Land**
   - Mario continues his domination of the Game Boy and NES charts. He’ll probably top next month’s Super NES chart too!

2. **TMNT: Fall of the Foot Clan**
   - The Foot Clan may fall, but the heroes in a half shell remain steady in their Number Two position.

3. **Dr. Mario**
   - Most doctors stay in their offices, but this portable practitioner will go anywhere, including Number Three.

4. F-1 Race
5. Final Fantasy Legend
6. Castlevania: The Adventure
7. Operation C
8. Batman
9. Sword of Hope
10. Gargoyle’s Quest

Game Boy Top 10 rankings are determined by the votes of the Pros at Nintendo HQ, sales at NES retailers, and votes by readers of Nintendo Power. You can vote for your favorite Game Boy game by filling out Game Boy Player’s Poll entry and sending it to us.
In addition to our big ActRaiser review this issue, our Super NES coverage includes a focus on two other excellent titles. Pilotwings puts you in the air for various flying activities and Populous lets you control a planet and promote the growth of a primitive society.

Pilotwings
Earn Your Pilotwings
In A Realistic Flight Simulation
©1991 Nintendo

Soar With The Flight Club!

Welcome Flyers
Earn Your License

If you've ever dreamt of breaking free from the ground and taking to the sky, then the Pilotwings Flight Club is for you. Our school offers expert instruction, lots of flight time and more varied types of flight than you'll find anywhere else. Fasten your safety strap, zip up your loose change and come fly with the Flight Club!

When you succeed in each of the eight flight lessons and two helicopter rescue missions, you'll earn a license which will allow you to fly at that level whenever you return to the Flight Club. You'll begin by learning the basics of skydiving and piloting a light plane and you'll eventually graduate to the Rocketbelt and Hang Glider.

Meet Your Instructors

Our four flight instructors are licensed pilots who each have logged hundreds of flight hours. They oversee the four areas of the Flight Club and will give you both novice and expert lessons.
Learn The Basics Of Four Flight Forms

At the Flight Club, we specialize in light plane flight, skydiving, hang gliding and rocketbelting. We begin with lessons on the basics of these flight forms and continue with lessons on advanced techniques.

Light Plane
This biplane is built for easy maneuverability. When we take you up for your first flight, you'll follow a glide path and land the craft.

In advanced lessons, you'll target huge rings in the sky and later, arches on the ground.

A stable landing will help you earn your credentials.

Rocketbelt
This experimental form of flight will be introduced in your second lesson. It has two jet speeds and can be flown both forwards and backwards. Your first test will be to fly through rings and land safely.

Skydiving
We have you falling through hoops from your very first drop in this no net event. We'll take you up to 3,800 feet, so that you can negotiate three rings in freefall and aim for a big bull's-eye near the runway.

After you've fallen through the rings, pull the cord and aim for the bull's-eye.

The novice lesson in rocketbelting requires that you fly through three slowly moving rings and land safely on the pad.

Hang-Glider
You really have to know which way the wind is blowing in order to master the flight of the hang glider. In your third lesson, we'll introduce you to this tricky form of flight and teach you how to fly toward the lifting thermal currents.

It's important to fly into the thermal currents for a lift in the hang gliding event.

Practise makes perfect in hang gliding.

Wait! There's More!
Once you've mastered each set of four lessons, you'll go up in a helicopter for exciting rescue missions. You'll also experience bonus flights after incredible landings.

Go up in a chopper to take out enemy cannons and save the Flight Club instructors.

Land on moving platforms and you'll take off for a trio of wacky flights.

VOLUME M 75
After each successful lesson, you'll earn a license which will allow you to move on to more difficult flying challenges. What follows is an outline for the first four lessons.

**FLIGHT AREA 1**

You'll have to earn a combined total of 120 out of a possible 200 points in the two tests of Lesson 1 in order to receive your Class A License. It should be a snap after a few tries.

**FLIGHT AREA 2**

If you average 67 out of a possible 100 points in the three tests of this lesson, you'll earn the 200 points needed for your license.

**FLIGHT AREA 3**

If you're new to the hang gliding event, you should attempt it first in this lesson so that you can continue to retry it until you succeed.

**FLIGHT AREA 4**

You have four tests in this fourth lesson and you'll have to score at least 300 of the 400 possible points in order to graduate to the first helicopter rescue mission.

---

**Flights Continue**

Once you earn your Class D License in Lesson 4, you'll be called upon to rescue your instructors by helicopter. Then the lessons will continue in adverse weather conditions.
In Populous from Acclaim you are the Good Master helping a civilization grow from huts to castles. On the other side of the world, an Evil Master is doing the same thing. The Super NES makes possible the life-like, three-quarter view graphics and ominous sound effects.

**FLATLANDERS UNITE!**

As any historian will tell you, the roots of civilization are embedded in agriculture. In Populous, you can spur development of your people by raising or lowering the land so that they can grow crops. Wide plains will increase your population, which means more Manna, more Knights and a better chance to do unto the Evil Master before he does it unto you. Work quickly to reap your reward.

**OMNIPOTENT POWERS**

Depending on how much Manna you have built up, which is indicated by the arrow on the Manna Bar, you can inflict disasters on the enemy or create powerful Knights. Most disasters alter the land so that crops can no longer be grown in an area and the level of civilization falls.

**EARTHQUAKE**

Earthquakes shake the ground and lower high land. Areas that have been hit are unsuitable for growing crops, but the Evil Master may redevelop the land.

**UP WITH PEOPLE POWER**

The bigger your population, the better your chances for taking over the world for the cause of Goodness. Some of the ten types of terrain are much harsher than others, making it more difficult to increase your population. Your goal is to outnumber the enemy.

**MOUNTAIN**

Raising a mountain in the midst of a plain destroys most of the Evil Civilization in the area. It is also difficult to turn rocky mountain terrain back into fields.

You can call up Armageddon—the final battle between Good and Evil—if you have the highest level of Manna.

As the population grows in an area, the buildings develop from crude huts to strong castles. A large flat area can support big buildings.
The most dramatic innovation made by the creators of Populous is the radical view of the game. You can see everything and control every aspect of the game from one screen. The only time you'll need a different view is when you access custom game options.

**BOOK OF WORLDS**
The Book of Worlds shows a complete map of the game world. Dots represent the population centers and a cursor shows the Close-Up Map position.

**CLOSE-UP MAP**
The Close-Up Map shows Walkers, buildings and everything else in a small area of the world. From this you see the effects of floods, earthquakes and other events.

**COMMAND ICONS 1**
Many of the Command Icons on the left side of the board are used for viewing things. You'll also find the Papal Magnate Commands here.

**COMMAND PERFORMANCE**

**VIEW SHIELD**
This command zooms the Close-Up Map to the Walker who is holding the Shield—the Shield Bearer. The Shield gives information on the Shield Bearer's strength and the overall population sizes of both the Good and Evil populations. You will also see battles animated on the Shield when the Shield Bearer clashes with the enemy.

**SWAMP THE ENEMY**
Swamps can be used to drain your enemies. Planting swamps around a vital area such as the enemy's Magnate will make it difficult for Evil Walkers to reach the Magnate and become Leaders. Swamps can be located only on flat areas of the enemy's territory.

**GO TO THE MAGNATE**
Walkers become Leaders only by touching the Papal Magnate, which is important because only Leaders can become Knights. The Magnate also acts as a beacon. You can move the Magnate, then command your people to go to it in the way you direct their migrations.

**HAVE A GOOD KNIGHT**
If you have a high enough level of Manna, you can transform a Leader into a Knight. Each Knight searches out enemy fortifications and towns and attacks them. If he wins, he will burn the settlement and move on. The more Knights you have, the faster you will be, but it takes a lot of Manna to create just one Knight. Knights can gain almost invincible strength over time.

**INFO SHIELD**
The Info Shield shows the strength of the Shield Bearer and also contains information about both the Good and Evil populations.

**MANNA BAR**
The arrow on the Manna Bar shows how much Manna you have earned and which commands you can use. When you make a command, you'll lose Manna.

**MANNA ICONS 2**
Custom game options and disasters are controlled with the Icons on the right side of the board. You can also create Knights and pause the game.

**THE GREAT FLOOD**
By using the Flood Command you will raise the level of the World's seas by one level, destroying buildings that are covered by the water. This command can be devastating to both Good and Evil populations, so use it with care.

**GAME SETUP**
The Game Setup lets you customize your game. You can choose one of the ten different types of terrain, alter basic laws such as if Swamps are bottomless or not, or create a more difficult computer opponent. You can also save or load a game.
Populous has ten unique landscapes. Many are whimsical worlds where the people become pigs or aliens, but the game remains the same. Many of the worlds have harsh environments where populations are slow to increase. There are 989 worlds in all.

<table>
<thead>
<tr>
<th>Worlds to Conquer</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>GRASSY PLAINS</strong></td>
<td>The Grassy Plains are suited to new settlements and growing populations. The first world consists of Grassy Plains. The terrain is easy for Walkers to cross.</td>
</tr>
<tr>
<td><strong>JAPANESQUE</strong></td>
<td>Step into the world of medieval Japan where Semper ruled the land. The buildings and people are not the only changes you'll notice. The terrain is more severe.</td>
</tr>
<tr>
<td><strong>DESERT</strong></td>
<td>The Desert is a harsh world where it will be difficult to increase your population of Walkers. The Walkers will also find the terrain difficult to cross.</td>
</tr>
<tr>
<td><strong>FRANCAISE</strong></td>
<td>The mild European landscape is conducive to the growth of civilization. It is neither too difficult nor too easy, just very French.</td>
</tr>
<tr>
<td><strong>SNOW &amp; ICE</strong></td>
<td>The icy land is difficult to cross, but the populations develop fairly rapidly. The terrain elevations are difficult to discern, which is an added challenge.</td>
</tr>
<tr>
<td><strong>CAKE LAND</strong></td>
<td>Cehe Laid is one of the sillier places in which you will find yourself. The buildings look delicious, but the inhabitants develop slowly.</td>
</tr>
<tr>
<td><strong>ROCK &amp; LAVA</strong></td>
<td>Here is another world where life is difficult. The seas are lava and the land is infertile ash and stone, which takes a lot of Manna to manipulate.</td>
</tr>
<tr>
<td><strong>SILLY LAND</strong></td>
<td>In Silly Land the people are aliens and the buildings are colorful space stations. This is a difficult world in which to get around for Walkers.</td>
</tr>
<tr>
<td><strong>BIT PLAINS</strong></td>
<td>The buildings in this unusual world represent different Nintendo hardware systems. You might not recognize some of the Japanese hardware models.</td>
</tr>
<tr>
<td><strong>PIGLET WORLD</strong></td>
<td>This world seems fairly mild, but the piglet inhabitants have an endurance for walking long distances. Flat lands and settlements are more their style.</td>
</tr>
</tbody>
</table>
Andre's entry appealed to our sense of the far-out, but it also had a practical side. You can really get a grip on hard games. Converting a real Game Boy ever to Andre's design will be interesting.

Jon's design caught our collective eye due to the super use of perspective, which makes the elements of the Game Boy seem to leap out. This design begs for a hot-action game to boost its energy further.

Le-Duong's artistry can't be denied. The sense of balance and color made this design the best of the mural-type entries. What impressed us even more was Le-Duong's imaginative Nintendo jungle pyramid.
The flood began two weeks after Volume 27 of Nintendo Power reached the mailboxes of America. Tens of thousands of you went artistically ape with sometimes whimsical, sometimes outrageous, and sometimes truly beautiful entries for the Ultimate Game Boy Design Contest. We received claymation models, pencil sketches, water colors, ink, crayon, tin foil and designs created from just about every material imaginable. There were Mario Game Boys, D&D Game Boys, TMNT Game Boys, Game Boys with grips, Game Boys with straps, and disguised Game Boys that looked like cans of soup or dollar bills. Choosing winners wasn’t easy. So along with the winners and runners-up, we’d like to share with you a few more of these gems of creative magic.

**RUNNERS UP**

**Chris Elsbree**
Dunstable, MA

Chris created a clean and elegant, high-tech design.

**LaFerna Walch**
Addison, MI

We received a lot of Game Girl designs, but LaFerna’s was the best.

**Betsy Grueninger**
Hales Corners, WI

Betsy’s “camouflaged” Game Boy shouldn’t be hidden away.

The three first prize winners will have their designs converted into actual Game Boys by professional model makers. Each of the runners-up will receive one of the Game Boys featured in Vol. 27.
SEE FOR YOURSELF HOW STAR WARS SPECIAL EFFECTS WERE CREATED!

- Win a trip to Star Wars HQ!
- See how video games are made and play games under development by LucasArts Games
- See a special screening of Star Wars
- Tour Industrial Light & Magic to see how Star Wars effects were created
- Tour the Star Wars Archives
ATTENTION JEDI KNIGHTS!

To celebrate the release of the Star Wars NES game, limited screenings of Star Wars, the movie, will be held in specially selected THX theatres in ten cities nationwide. A whole new generation of Jedi Knights will experience Star Wars on the big screen—the way it was meant to be seen! The screenings will be held between December 21 and January 5 at the theatres listed below. Check the one nearest you for times.

December 21-26
Los Angeles, CA (Pacific’s Great Theatre) San Francisco, CA AMC Kabuki & Chicago, IL (Cinemas Disney McClure Court) Dallas, TX (United Artists Plaza Theatre) Seattle, WA (Art DE Crossroads Theatre, Bellevue)

December 31-January 5
Washington, DC (AMC Union Station 9) Boston, MA (GCC Chestnut Hill Cinema 5) St. Louis, MO (Wehrenberg Union Station 10) New York, NY (Loews Village Theater Vit) Atlanta, GA (GCC General Cinema, Perkins)

Tickets are available on a first-come, first-served basis, with a limit of two per order. To order, call 1-900-933-R2D2 ($1.00 for the first minute, $1.50 for each additional minute). Parents or guardians must call for children under 14. Any proceeds from the “900” calls will go to the Variety Club chapter in the towns where the screenings are held.

OFFICIAL RULES
(NO PURCHASE NECESSARY)

To enter, either fill out the Player’s Poll response card or print your name, address and telephone number on a plain 3”x5” piece of paper. Mail your entry to this address:

NINTENDO POWER PLAYER’S POLL
P.O. BOX 97062
REDMOND, WA 98073-9762

One entry per person. Entries must be postmarked by January 1, 1992. We are not responsible for lost, stolen or misdirected mail. On or about February 15, 1992, winners will be randomly drawn from among all eligible entries and notified by mail. By accepting their prizes, winners consent to the use of their names, photographs, or other likenesses for advertisements or promotions on behalf of “Nintendo Power” magazine or Nintendo of America Inc. without further compensation. Chances of winning are determined by the total number of entries received. The ratio of prizes to entry cards distributed is 1:1,350,000. Prizes are limited to one per household. Winners may not elect to substitute prizes. All prizes will be awarded. To receive a list of winners, which will be available after January 31, 1992, send your request to the address provided above.

GRAND PRIZE TRIP: Nintendo will arrange travel for the Grand Prize winner and one parent or guardian to LucasArts Games. Estimated trip value is $2,000. If over 18, Nintendo will provide transportation and accommodations for the winner and one guest. The winner must provide written release to Nintendo. This contest is not open to employees of Nintendo of America Inc., their affiliates, agencies, or immediate families and is subject to all federal, state, and local laws and regulations. Void in Canada and elsewhere where prohibited by law.
The end of the year has brought quality games for all three Nintendo game systems. This month's look at NES and Super NES games that didn't quite rate feature coverage but still deserve a second glance includes a new Disney TV show adaptation, a sequel to one of the first NES games, a couple of exciting sports games, Kevin McAllister's Super NES adventure and the sequel to the arcade/NES/Game Boy hit Paperboy.

TALESPIN

The high-flying bear, Baloo, takes off for an eight stage journey in Capcom's adaptation of the animated Disney series TaleSpin. As Baloo, you'll pilot the trusty Mini Sea Duck through one cargo delivery mission after another, taking on the forces of Don Karnage and his pirates. After each successful flight, you'll take the Sea Duck into the shop for repairs and to purchase special items such as a rapid fire attachment or extra chances to continue. The amount of work that you can have done to your plane depends on how many cargo crates and bags of money you hauled in during your flight.

Since the Mini Sea Duck is armed with only one gun, firing directions are limited. You can fire directly to the right and diagonally up and down, or you can flip the plane with a push of the A Button and fire to the left side. It's impossible, though, to fire straight up or straight down, which makes for a challenging battle with enemies on the ground or at the top of the screen. Automatic scrolling also steps up the challenge of the game. You will often come across blocking obstacles that could crush you against the edge of the screen unless you move out of the way very quickly.

Large groups of enemies, fast scrolling action in crowded quarters and a lack of maneuverability make TaleSpin a game that action game novices may find to be frustratingly difficult. Check it out if you're looking for a challenge.

Take to the skies as flying ace Baloo and fight off Don Karnage's forces.

If you fire your gun in the right places, you'll uncover balloon-filled bonus stages.
GOLF GRAND SLAM

Golf Grand Slam from Atlus is a game of planning and preparation. Once you line up your shot and pinpoint the part of the ball that is to be hit, the character on the screen automatically swings and sends the ball flying down the fairway. In order to aim the shot, you move a marker to the point on the course that you would like to reach, keeping in mind the average shot distance for each club.

Up to four players can participate in a tournament or one of two training modes. If you make a mistake, the computer will give corrective advice, and if you're in a training mode, you'll be able to try the same shot again.

KUNG FU II

One of the first fighting games ever made for the NES has finally inspired a sequel. Irem's Kung Fu II is a punching, kicking and jumping game in the tradition of its predecessor. New features include many more settings, plus cinema scenes that tell the story as you get further into the mission. While the game is more advanced than the original Kung Fu, it is still very basic when compared to the Double Dragon games and the Ninja Gaiden series. Your fighter, for instance, can only make three moves, and he has no special weapons.

You'll take on a leader of the enemy force at the end of every stage. They all have different weapons and fighting techniques. Some throw objects while others are just generally strong fighters. You'll do well if you work in close, hit them quickly two or three times, then move away as they execute their special moves. If you're an experienced fighting game player, you'll be able to master the game quickly and fight to the end of the mission.
**HOME ALONE**

Kevin McAllister is home alone and a pair of burglars who call themselves the wet bandits have put together a gang of hoodlums to take advantage of his predicament in THQ's Home Alone for the Super NES. It's your job to guide Kevin through four stages of crime fighting action as you attempt to gather the family's prized possessions and put them away in a safe place. You can stun the crooks with several kinds of weapons while you run through the house in search of valuables.

THQ is releasing an adaptation of Home Alone for each of the three Nintendo game systems. The Super NES and Game Boy versions are similar to each other in story line and game play while the NES version is a different game entirely. In this game, Kevin's object is to avoid contact with the wet bandits for 20 minutes while the police make their way to the house. When the crooks are temporarily caught in Kevin's traps, he can race by them unharmed and hide in other parts of the house. The game plays like an updated version of Pac Man or countless other chase games.

**PAPERBOY 2**

Mindscape's Super NES update of the classic game Paperboy follows the trials and tribulations of a Paperboy or Papergirl with a fun and comic style. As you steer your bike through a week of newspaper deliveries, you'll have to avoid the likes of runaway baby carriages, ghoulish creatures and cannon fire. After you survive each route, you can try your hand at a tricky obstacle course.

Your subscribers want the paper in their box every day and they won't accept anything but perfection. If you miss a box once, you'll lose that house on your route. Your goal is to make it through an entire week, missing as few boxes as possible. There's no turning back, so you have to hit them on the first try.
BILL LAIMBEER'S
COMBAT BASKETBALL

Basketball courts become battlegrounds in this Super NES spoof on the future of the sport from Hudson Soft. Android duplicates of Detroit Piston Bill Laimbeer and other aggressive robot players have it out in an overhead perspective game with very simple play control. The Control Pad is used to move the player that is closest to the ball while the B Button controls passing, shooting, jumping and punching.

LISTING KEY

You can get the most out of our game listing by understanding the categories. Title, Company and Game Type are self-explanatory. Use this Key to understand Play Info and the valuable Power Meter ratings.

PLAY INFO
Games are made to be played with one to four players. Some also employ a battery or password to save game play data.
1P = ONE PLAYER
2P-S = TWO PLAYER SIMULTANEOUS
2P-A = TWO PLAYER ALTERNATING
4P-A = FOUR PLAYERS ALTERNATING
PASS = PASSWORD
BATT = BATTERY

POWER METER
The Pros at Nintendo HQ rate each new game. Ratings are from 1 (poor) to 5 (excellent) in four areas.
G = GRAPHICS AND SOUND
P = PLAY CONTROL
C = CHALLENGE
T = THEME AND FUN

In addition to buzz saws, missiles and land mines, there are coins on the court that add to your post-game purse. When you earn enough money, you can buy robots that excel in six important skills: speed, agility, shooting, passing, aggression and strength. The most powerful and most expensive robot is the Bill Laimbeer model. Earn enough money and you could fill your team with Laimbeers!
Here they are, top scores from red hot power players! If you'd like to see your achievements listed with those of other game masters, rack up the high scores and send your photos in. If your scores are among the best we receive, they might just make our list!

ARE YOU A POWER PLAYER?
If you want to see how you rate, record your power accomplishments on film and send them to NES Achievers. If yours is one of the highest scores we receive, or if you're one of the first to finish a game, your name might be listed in a future issue. When you take a picture of your television or Game Boy screen, hold your camera steady and use only natural light. For best results, use a 35 mm camera without a flash. We're starting to receive Super NES scores, too, so beginning next month, we'll be making some changes and including those top scores, too. Why not give it a shot? The only thing certain is that you won't make the list if you don't enter!

Send Your Entries To:
Nintendo Power NES Achievers
P.O. Box 97033
Redmond, WA
98073-9733
The NES is about to get bumped out of its solo spot on the Top 30. Beginning next month, we will expand our coverage to list the Top 20 games for Game Boy, the NES and the Super NES.

Use this color-coded key to check on your favorite games.

- **Newcomers appearing for the first time this month.**
- **Games that have appeared between two and nine times.**
- **Titles that have made the Top 30 ten times or more.**
- **Number of months the games have rated in the Top 30.**

**BATTLETOADS**
Zitz, Pimple and Rash make the scene and find their audience among action aficionados.

**CRYSTALIS**
Another mystical RPG, Crystalis incorporates time-traveling and magic to entice its fans.

**DRAGON WARRIOR II**
The land of Alefgard is the setting for puzzling events that add to the legend of Erdrick.

**MEGA MAN III**
Rush, the mechanical mutt, joins Mega Man in his third attempt to out-wit the wicked Wily.

**THE SIMPSONS: BART VS. THE SPACE MUTANTS**
It's mayhem when Bart takes on the suspicious space mutants that are posing as earthlings.

**TETRIS**
What more can we say? The challenge of this innovative puzzler continues to compel players.

**SUPER MARIO BROS. 2**
Our favorite plumbers hold a second spot in the top ten this month. What a dynamite duo!

30. Mega Man II | 522

---

**PLAYERS REMAIN LOYAL TO POPULAR PKS**

Longtime favorites—Mario, Mega Man, ‘toads and Turtles—dominate the players’ list.

**NO SURPRISES ON PROS’ LIST**

As usual, the pros pick mostly RPGs. The greater the challenge, the more they like it.

**THE DEALERS’ LIST RUNS THE GAMUT**

From Bugs Bunny to Bases Loaded, their choices reflect consumer demand for variety.
I f Mayim Bialik were to create a Nintendo video game, its players would reach new levels by discovering art and music or by saving a prince—instead of a princess. Its ultimate goal would be to become a complete and happy person. That doesn't describe your average video game, but then again, Mayim's not your average teenager.

The spunky 15-year-old star of the hit television series, "Blossom," is as versatile as she is talented and as smart as she is artistic. She's an accomplished actress and musician whose pastimes, to name a few, include singing, dancing, playing the piano and trumpet, making jewelry, saving the environment, hanging out with friends, playing Nintendo games, and keeping tabs on Crystal, her adopted whale.

In "Blossom," which airs on NBC, Mayim portrays Blossom Russo, a teenager in the throes of adolescence who is left to grow up in an all-male household after her parents' divorce. Blossom faces the challenges of life with imagination and a healthy sense of humor, which makes her a lot like Mayim. In real life, Mayim has a real family that gives her the sense of security that Blossom sometimes lacks—but tries her best to overcome.

Mayim became an avid Nintendo fan when she first discovered Tetris. "I love playing video games because when I pick them up, I'm suddenly in a different world," she says. That is a familiar concept, considering that Blossom's anxieties are often reflected in a series of outrageous dreams, one of which included meeting ALF at the gates of Heaven.

The cast of "Blossom" has lots of fun on the set. Everyone plays Game Boy, and the technicians are so into Golf that they illuminate their Game Boy systems when the set is dimmed for taping. Mayim's favorite Game Boy game is Tetris doubles. She plays with co-star Joey Lawrence, who, she says, is "really into Nintendo."

Mayim says that being on "Blossom" doesn't feel like work at all, and she hopes to continue with it for as long as possible. Although she has wanted to be an actress for as long as she can remember, Mayim couldn't convince her parents that she was serious about it until she was 11. At 12, she got her first big break in the feature film, "Beaches" as the young C.C. Bloom. The amazing performance she gave quickly elevated her to star status.

Mayim's impressive credits also include guest appearances on the TV series "Webster," "Empty Nest" and "Beauty and the Beast." A junior in Los Angeles County's Magnet program for gifted students, Mayim likes all subjects, especially math and science.

For a teenager like Mayim, who firmly believes that variety is the spice of life, playing Nintendo games is ideal fun, no matter what: "If I have nothing to do or too much to do, I play Nintendo games."
It looks as if this new year will see some long-time favorite characters in new adventures along with an exciting crop of new games. For the NES, old faves like Mega Man and The Simpsons are sure to be huge. Super Off Road and Smash TV for the Super NES are also based on NES hits.

THE SIMPSONS: BART VS. THE WORLD

Bart is on his way back to the NES in The Simpsons: Bart Vs. The World from Acclaim and it looks like a definite improvement over the first Simpsons title for the NES. For one thing, the frame story is good enough to have been the basis of one of the TV episodes. Bart wins a Krusty the Clown art contest, the prize of which is a trip around the world for the entire Simpson clan. Actually, the entire contest has been rigged by Mr. Smithers as a means of getting rid of Homer's detested household. Once again Bart plays the hero, but this time his actions make more sense. We thought some of the sequences rocked heavily, like Bart skateboarding at high speed on top of the Great Wall of China. Other options, like the matching game or puzzles, don't add much to the story or the fun, although the Simpson's Trivia game option will appeal to fans of the TV show. If Bart is your main dude, get set for this one sometime early next year.
RAMPART

The innovative people at Jaleco who brought us Maniac Mansion are back at it again with a game called Rampart. Imagine Stratego, Tetris and Pirates all combined into one strategy/action game. Yep, we found it pretty hard to imagine, too. The idea is that your castle is being attacked by an armada from the sea. Position your cannons, then engage the enemy. After the shooting phase, in which you direct the cannon fire, rebuild and extend your ramparts with Tetris shaped blocks in preparation for further battle. It sounds complex, but we found that the interface was easy to master and the game was a blast.

MEGA MAN IV

As unabashed Mega Man fans, we have been waiting for Capcom’s sequel to the sequel practically since the day we finished Mega Man III. The wait was worth it. From the opening story that introduces a new mega-villain, Dr. Cassock, to the jumping, sliding, climbing action of Mega Man, this game makes all the right moves. New stage bosses like Pharoe Man, Drill Man and Dive Man kept our Mega Busters blasting and, when we needed a boost, Rush the robotic pooch was there to help out. We walked on light beams and battled mechanoid monsters like a giant robotic hippo, mummy robots who threw their own heads and skeletonoids who wouldn’t quit. We even hitch-hopped on a robotic cricket to cross a floor of spikes. You’ll definitely be hearing more about this one.

MONSTER IN MY POCKET

For Monster In My Pocket, Konami scales down the monsters and heroes (who are also monsters) but keeps lots of big time fun. This Pak Watcher was hooked right from the beginning when asked to choose a character—either a vampire or a Frankenstein’s monster. Yeah, no more mister nice guy! There’s nothing nice about the gremlins, either, or the witches, gargoyles and just about every other nasty thing under the moon that are after you. Climbing gigantic chairs and sliding down banisters to escape the mutants is all part of the nightmare. A special double jump gives you extra height for reaching those hard-to-reach places—like the rim of a coffee cup. You can team up with a friend for simultaneous monster mashing or go it alone against the ghouls. Although the incredible shrinking monster idea isn’t exactly new, the action is intense and the bosses are daunting and haunting.
The two games featured this time in the Super NES Development Dispatch have already proven their success with NES versions. So why bring out Super NES versions, you might ask. One reason is that the programmers can include better control and more game options as well as the high-octane graphics and sound that we’d expect from a Super NES Pak. The result is exciting new games with a familiar feel.

SUPER OFF ROAD

Super Off Road from Tradewest looks sophisticated and sounds sophisticated, but the action is down and dirty. As NES Super Off Road fanatics already know, the game pits four off road trucks against each other and some totally killer tracks. The more you win, the more money you’ll earn for improving your truck with shocks, engines, tires and Nitro. This Super NES version scores over the original in the hard, rocking sound track and sound effects, plus the great graphics. The only drawback is that only two players can drive head-to-head, unlike the NES version’s four-player option. Items and money still appear on the track, and the challenge remains as intense as ever. We had the most fun on the two-player simultaneous option, bashing our way to victory.

SMASH TV

Smash TV from Acclaim picks up where Rollerball and The Running Man left off. You become the contestant battling both for his life and untold riches. The award-winning arcade version of this game has become one of the highest ranked quarter munchers of the past year. Our quick peek at the early Super NES version reveals a good reason for devotees to start saving their quarters now. The graphics and options such as stage select are first rate. The only drawback was that we had only two-player simultaneous action. As for the game action, the combatants do everything but smash your TV.
Nintendo's newest arcade machine—the Nintendo Super System—was unveiled earlier this year at an annual Coin-Op show. The new units feature hit games like Super Tennis, F-Zero and Super Mario World that are also available for the Super NES. Instead of buying time in games like SMW, the Super System allows you to buy extra lives so you can continue.

DIGITIZED!

We don't pretend to be able to read the future here at Pak Watch, but from time to time we get an enticing glimpse of things to come. One game due out in '92 is leading the way toward virtual reality with digitized graphics. Super Battletank from Absolute features graphics that are reproductions of actual photos that have been broken down into digital bits. In digital form, the photos can be programmed into the game. The game itself is based on the Persian Gulf conflict and looks so real that you'll wonder if it's Super NES or CNN.

RUMOR WRAP UP

The raddest, baddest mutant rumor is that the Turtles from Konami will be back in '92 on both the NES and Super NES. For those of you with a taste for music rather than pizza, check out the Super NES version of The Software Toolworks Miracle Keyboard (pictured) with enhanced sound and graphics.
BACK ISSUES
Nintendo Power's back issues are available individually. Add them to your collection! They contain these exciting reviews:

Volume 19 (Feb. '91): StarTropics, TMNT II: The Arcade Game, Quantum Fighter, Magician, Quest of the Avatar.
Volume 20 (March '91): MetalStorm, StarTropics, G.I. Joe, Hudson's Adventure Island II.
Volume 23 (June '91): Battletoads, Day Dreamin' Dokey, NES Open Tournament Golf.
Volume 28 (Nov. '91): Final Fantasy II, The Flintstones, Tom & Jerry, Where in Time Is Carmen Sandiego?

To order your back issues, use the order form in this issue.

BULLETIN BOARD
Beginning next month, we're adding regular comics that feature your favorite Nintendo characters. Every issue will be 16 pages longer than before!

NES, Super NES and Game Boy departments will be color-coded and easier to find. The Top 20 for each system will be listed in a new feature that replaces Top 30.

COMING IN JANUARY

BETTER

BLOCKBUSTERS

No matter which systems you have, you can count on complete coverage of the best games! Next month's powerhouse issue reviews the latest and greatest for each system, then, in a special preview, takes a look at an eagerly-awaited sequel, The Legend of Zelda—A Link to the Past.
Nintendo gives you the power to choose.
Classic power. Portable power. Super power. Any way you play, you'll win with Nintendo—three times over.
Our goal is to try and preserve classic videogame magazines from years gone by before they are lost forever.

Thanks goes out to all the people who make this possible. From the original editors and writers, to everyone involved in acquiring and digitizing these magazines.

People interested in helping us out, in whatever way possible. Either by donating classic magazines, scanning, editing or distributing them, visit us at http://www.retromags.com

We are only interested in preserving classic magazines that are at least 5 years out of print.

We have no desire or intention to profit from these in any way. So please, if you come across people trying to sell these releases, don't support them!

Thank You and ENJOY!
